To Whom It May Concern

This is to certify that Mr. Angsuman Das is known to me for the last two and half years as a M.Sc. Student. He obtained his M.Sc. degree from the Department of Zoology, Rajiv Gandhi University, Arunachal Pradesh with a CGPA of 7.29. During the two years of his stay in the department, I have found him to be highly interactive, hardworking and an accommodative student. During his M.Sc. Program, he has shown keen interest in the Subject Biochemistry, Cell Biology and Genetics and has a good hand in conducting practical based courses. He performed his M.Sc. Dissertation on the topic "Bioprospecting of Lepidoteran Silkworm" utilizing the limited resources available in the department with his full potential. His M.Sc. dissertation was well appreciated by one and all in the department. I, therefore, strongly recommend the candidature of Mr. Angsuman Das for the training program on "Bioinformatics Research Training".

I am sure he would excel in his academic endeavours.
