ANGSUMAN DAS

Rangachakua, Jamugurihat
Sonitpur, Assam, 784182
Mail id: angsudas62@gmail.com ,phn no: 7896505109

OBJECTIVE

A challenging entry-level position that get me into deeper research experience in bioinformatics where I can learn more and impact positively by utilizing my IT skills and knowledge of applications for Genomics and Epigenetics.

EDUCATION

M. Sc. (Zoology)	(68.29%, 2020)	Rajiv Gandhi university
B. Sc. (Zoology)	(72.00%, 2018)	Darrang College, Gauhati university
H.S.	(82.80%, 2015)	THB College, Sonitpur
H.S.L.C.	(74.87%, 2013)	Rangachakua HS School, Sonitpur

IT SKILLS

- Operating System: Windows 7/10 & Linux
- Languages: Python, R, HTML
- Office Suit: MS office, Google Workspace
- Basic Graphic Design, Poster presentation
- Database: NCBI, PDB, Uniprot

DATA ANALYSIS

- Data Science: Pandas, Pyplot, SKlearn
- Data Analysis
- NGS Data Processing

IT EXPERIENCE & PROJECTS

RASA Life Sciences

Trainee Bioinformtician (march2021-Now)

Springfest IIT Kharagpur, virtual

Internship Program (1month, 2020)

- 10-day Bioinformatics Training and
- 1-month internship Program with academic research exposure

Rajiv Gandhi University, Itangar

MSc Project (9month, 2019-2020)

Project: Lepidopteran Silk Worm. 3 membered Team.

- Reviewed the literature related to All Wild and domestic silk worms
- With Special emphasis on the North-east Indian Silk worms mined the literature
- Searched for related wild species of **Muga** (The golden silk worm) that is endemic to Assam state with an anthropo-zoological perspective
- Role: Involvement in majority of the phases of literature mining and Ground zero survey throughout the state of Assam.

Experience included 2 months of field visit and survey.

Darrang College, Tezpur

BSc Project (6month, 2018)

***Project**: Physico-Chemical property analysis of River Water and deter Biodiversity Index*

- Collected water samples of River bohimora from its source, course and mouth which flows through the Sonitpur District of Assam.
- Rigorous zoological survey and their habitat assessment throughout the River bohimora and the its mouth where it meets **Bhoroli** a tributary of Brahmaputra.
- The research contains references from high-end research literature in Geoinformatics and water assessment study

Outcome: Rapid loss of biodiversity toward its source are seen and river water livability in contamination can be observed which is due to illegal stone quarry.

ACHIEVEMENTS & ACTIVITIES OR EXTRA CIRRICULAR

- Volunteered through United Nations virtual volunteer as graphics designer for African Association of Entrepreneurship (2020)
- Conducted regular tuitions in Biology and Physics, and add 4-5 lower caste (Adivasi) student for free (2019-present)

PERSONAL DETAILS

Nationality	: Indian
Date of birth	: July 17th, 1997
Linguistic proficiency	: English, Assamese, Nepali, Bangla, Hindi
Interests	: Politicl Science, Human history and Coding
