SYLLABUS

General Paper on Teaching & Research Aptitude

Note :

There are two Papers for each of the subject. Paper - I on Teaching and Research aptitude, Paper - II based on the Syllabus of concerned subjects. Details are furnished below:

PAPER - I

Subject : General Paper on Teaching & Research Aptitude

The Test is intended to assess the teaching / research aptitude of the candidate. They are supposed to possess and exhibit cognitive abilities like comprehension, analysis, evaluation, understanding the structure of arguments, evaluating and distinguishing deductive and inductive reasoning, weighing the evidence with special reference to analogical arguments and inductive generalization, evaluating, classification and definition, avoiding logical inconsistency arising out of failure to see logical relevance due to ambiguity and vagueness in language. The candidates are also supposed to have a general acquaintance with the nature of a concept, meaning and criteria of truth, and the source of knowledge.

There will be 50 questions for Paper- I. There is a prescribed syllabus for Paper-I.

1. The Test will be conducted in objective mode. The Test will consist of two Papers. All the two Papers will consists of only objective type questions and will be held on the day of Test in two separate sessions as under:

Session	Paper	Number of Questions	Marks	Duration
First	I	50 questions	50×2=100	1 Hour
Second	II	100 questions	100×2=200	2 Hours

2. Candidates who appear in two Papers and secure at least 40% aggregate marks for candidates belonging to General category and atleast 35% aggregate marks for candidates belonging to reserved categories will be declared qualifies for Eligibility for Assistant Professor by following the reservation policy of the State Government.

3. The Syllabus of Paper–1 and paper – II will remain the same.

SLET Commission, Assam
(N.E. Region)
Subject : General Paper on Teaching & Research Aptitude

SYLLABUS

PAPER-I

The main objective is to assess the teaching and research capabilities of the candidates. The test aims at assessing the teaching and research aptitude as well. Candidates are expected to possess and exhibit cognitive abilities, which include comprehension, analysis, evaluation, understanding the structure of arguments, deductive and inductive reasoning. The candidates are also expected to have a general awareness about teaching and learning processes in higher education system. Further, they should be aware of interaction between people, environment, natural resources and their impact on the quality of life.

The details of syllabi are as follows:

Unit – 1: Teaching Aptitude

- Teaching: Concept, Objectives, Levels of teaching (Memory, Understanding and Reflective), Characteristics and basic requirements.
- Learner's characteristics: Characteristics of adolescent and adult learners (Academic, Social, Emotional and Cognitive), Individual differences.
- Factors affecting teaching related to: Teacher, Learner, Support material, Instructional facilities, Learning environment and Institution.
- Methods of teaching in Institutions of higher learning: Teacher centred vs. Learner centred methods; Off-line vs. on-line methods (Swayam, Swayamprabha, MOOCs etc).

- Teaching Support System: Traditional, Modern and ICT based.
- Evaluation Systems: Elements and Types of evaluation, Evaluation in Choice Based Credit System in Higher Education, Computer based testing, Innovations in evaluation systems.

Unit - 2 : Research Aptitude

- Research: Meaning, Types and Characteristics, Positivism and Post-positivistic approach to research.
- Methods of Research: Experimental, Descriptive, Historical, Qualitative and Quantitative methods.
- Steps of Research
- Thesis and Article writing: Format and styles of referencing.
- Application of ICT in research.
- Research ethics.

Unit - 3 : Comprehension

- A passage of text be given. Questions be asked from the passage to be answered.

Unit - 4 : Communication

- Communication: Meaning, types and Characteristics of communication.
- Effective communication: Verbal and Non-verbal, Inter-Cultural and group communications, Classroom communication.
- Barriers to effective communication.
- Mass-Media and Society.

Unit - 5 : Mathematical Reasoning and Aptitude

- Types of reasoning.
- Number series, Letter series, Codes and Relationships.
- Mathematical Aptitude (Fraction, Time & Distance, Ratio, Proportion and Percentage, Profit and Loss, Interest and Discounting, Averages etc.).

Unit - 6 : Logical Reasoning

- Understanding the structure of arguments: argument forms, structure of categorical propositions, Mood and Figure, Formal and Informal fallacies, Uses of language, Connotations and denotations of terms, Classical square of opposition.
- Evaluating and distinguishing deductive and inductive reasoning.
- Analogies.
- Venn diagram: Simple and multiple use for establishing validity of arguments.
- Indian Logic: Means of knowledge.
- Pramanas : Pratyaksha (Perception), Anumana (Inference), Upamana (Comparison), Shabda (Verbal testimony), Arthapatti (Implication) and Anupalabddhi (Non-apprehension).
- Structure and kinds of Anumana (inference), Vyapti (invariable relation), Hetvabhasas (fallacies of inference).

Unit - 7 : Data Interpretation

- Sources, acquisition and classification of Data.
- Quantitative and Qualitative Data.
- Graphical representation (Bar-chart, Histograms, pie-chart, Table-Chart and Line-Chart) and mapping of Data.
- Data Interpretation.
- Data and Governance.

Unit - 8 : Information and Communication Technology (ICT)

- ICT: General abbreviations and terminology.
- Basics of Internet, Intranet, E-mail, Audio and Video-conferencing.
- Digital initiatives in higher education.
- ICT and Governance.

Unit - 9 : People, Development and Environment

- Development and environment: Millennium development and Sustainable development goals.
- Human and environment interaction: Anthropogenic activities and their impacts on environment.
- Environmental issues: Local, Regional and Global; Air pollution, Water pollution, Soil pollution, Noise pollution, Waste (solid, liquid, biomedical, hazardous, electronic), Climate change and its Socio-Economic and Political dimensions.
- Impacts of pollutants on human health.
- Natural and energy resources: Solar, Wind, Soil, Hydro, Geothermal, Biomass, Nuclear and Forests.
- Natural hazards and disasters: Mitigation strategies.
- Environmental Protection Act (1986), National Action Plan on Climate Change, International Agreements/ efforts – Montreal Protocol, Rio-Summit. Convention on Biodiversity, Kyoto Protocol, Paris Agreement, International Solar Alliance.

Unit - 10 : Higher Education System

- Institutions of higher learning and education in ancient India.
- Evolution of higher learning and research in Post Independence India.
- Oriental, Conventional and Non-Conventional learning programmes in India.
- Professional, Technical and Skill Based education.
- Value education and environmental education.
- Policies, Governance and Administration.

NOTE: (i) Five questions each carrying 2 marks are to be set from each Module.

(ii) Whenever graphical / pictorial question (s) are set for sighted candidates, a passage followed by equal number of questions and weightage be set for visually impaired candidates.

Booklet No. 04058

2022

PAPER – I

Full marks – 100

Time – 1 hour [10 a.m. to 11 a.m.]

Signature and Name of Invigilator

1. (Signature) _____ 13/7/22

(Name) Utpal Chowdhury

Time : **1** hour] **Test Booklet Code** [Y] [Maximum Marks : **100**

Number of Pages in this Booklet : **16** Number of Questions in this Booklet : **50**

Instructions for the Candidates

1. This paper consists of fifty (50) objective type questions.
2. At the commencement of examination, the question booklet will be given to you. In the first 5 minutes, you are required to open the booklet and compulsorily examine it as below :
   (i) To have access to the Question Booklet, tear off the paper seal on the edge of this cover page. Do not accept a booklet without sticker-seal and do not accept an open booklet.
   (ii) **Tally the number of pages and number of questions in the booklet with the information printed on the cover page. Faulty booklets due to pages/questions missing or duplicate or not in serial order or any other discrepancy should be got replaced immediately by a correct booklet from the invigilator within the period of 5 minutes. Afterwards, neither the Question Booklet will be replaced nor any extra time will be given.**
   (iii) After this verification is over, the Test Booklet Code should be entered in the OMR Sheet.
3. Each item has four alternative responses marked (A), (B), (C) and (D). You have to darken the circle as indicated below on the correct response against each item.
   Example : Ⓐ Ⓑ ● Ⓓ
   where (C) is the correct response.
4. Your responses to the items are to be indicated in the **OMR Sheet given with this Booklet.** If you mark at any place other than in the circle in the OMR Sheet, it will not be evaluated. **Also answer once marked shall not be cancelled or erased. If anybody does it, his/her OMR sheet shall be treated as cancelled and shall not be evaluated.**
5. Read instructions given above carefully.
6. Rough Work is to be done in the space provided at the end of this booklet.
7. If you write your Name, Roll Number, Phone Number or put any mark on any part of the Answer Sheet, except for the space allotted for the relevant entries, which may disclose your identity, or use abusive language or employ any other unfair means, you will render yourself liable to disqualification.
8. You have to keep the OMR sheet with you for marking the Answer of questions in Paper II. The OMR Answer sheet is to be handed over to the invigilators at the end of the examination of Paper II compulsorily and must not carry it with you outside the Examination Hall. You are, however, allowed to carry the Test Booklets for Paper I and II with the carbon copy of OMR Sheet on conclusion of examination.
9. **Use only Ball point pen.**
10. **Use of any calculator or log table etc., is prohibited.**
11. **There is no negative marks for incorrect answers.**

SEAL

PAPER – I

Note : There are **fifty (50)** questions. The questions carry **two (2)** marks each.

1. The National Talent Search Scheme provides scholarship to 1000 brilliant science students out of which number of SC and ST categories are —

(A) 100 for SC and 50 for ST

(B) 150 for SC and 75 for ST.

(C) 200 for SC and 100 for ST

(D) 225 for SC and 120 for ST

2. In our present society where values are deteriorating, the excellent education will be the one that —

(A) exaggerates the competition in the society

(B) works for reestablishment of human and cultural values

(C) enables one to earn in an easy manner

(D) decelerates the social change in the society

3. Which of the following is not correct ?

(A) Good research is logical.

(B) Good research is empirical.

(C) Good research is replicable.

(D) Good research is irreplicable.

4. Read the statements given below.

(i) Foreigners in China, without valid work permit, will be deported.

(ii) A few Indian employees in building industry in China do not possess valid work permit.

The inferences drawn from the above statements are :

1. All Indians engaged in Building Industry in China will be deported.
2. A few Indians in Building Industry in China will be deported.
3. Bulk of the Indians in China will be deported.
4. Indian employees in Building Industry without work permit will be deported from China.

Which of the following inferences are correctly drawn ?

(A) (1) and (3) are correct

(B) (3) and (4) are correct

(C) (2) and (4) are correct.

(D) (1) and (2) are correct

Read the following paragraph and answer the questions given below :

"The achievements of Science and Technology in the twentieth century has been very great and rapid. Its influence can be felt in every sphere of life. Most of the things and implements that we need for our everyday use such as the small pin and needle to the big iron sheets are manufactured in the industries where scientific principles are utilized for practical ends. Science has enabled men to bring forces of nature under control and to use them for their own advantage. It has brought the distant parts of the world, close together. Our knowledge of the Universe has been much widened on account of the untiring efforts of the astronomers. Mankind have been able to overcome the curses of disease owing to the discovery of some excellent medicines."

From the above passage, answer the following questions **(5 to 8)** :

5. The main idea of the passage is :

(A) The impact of Science and Technology is felt in every sphere of life.

(B) Science and Technology is anathema.

(C) Nothing is beyond the purview of Science and Technology.

(D) Science and Technology can work miracles.

6. The mode of approach of the statements in the paragraph is :

(A) Logical

(B) Anatomical

(C) Descriptive

(D) Expository

7. From the passage, it is evident that, Science and Technology have proved to be great boon for :

(A) Engineers only

(B) Scientists only

(C) Explorers only

(D) None of the above

8. What will be the most appropriate title of the passage ?

(A) Science is a curse

(B) Science, a great boon

(C) Science and Technology are universal truth

(D) Achievement of Science and Technology

9. Fill in the blank with the appropriate collective name, in the following sentence.

"A ..... of owls."

(A) snatch

(B) pride

(C) parliament

(D) pack

10. The full form of the newspaper DNA is :

(A) Daily News Agency

(B) Deccan News Analysis

(C) Daily News and Analysis

(D) Deccan News Agency

11. Let us consider the following two statements. State whether the statements are true or false using the codes given below :

I. $4+3=7$ AND $4\times3=7$

II. All natural numbers are integers OR all rational numbers are integers.

Codes :

(A) I is true, II is true

(B) I is true, II is false

(C) I is false, II is true

(D) I is false, II is false

12. The value of

$$\frac{\frac{1}{5}\div\frac{1}{5}\text{ of }\frac{1}{5}}{\frac{1}{5}\text{ of }\frac{1}{5}\div\frac{1}{5}}$$

is —

(A) $\frac{1}{25}$

(B) $\frac{1}{5}$

(C) 1

(D) 25

13. Full form of URL is :

(A) Uniform Resource Locator

(B) Unified Resource Locator

(C) Universal Resource Locator

(D) Unanimous Resource Locator

14. Montreal Protocol is concerned with :

(A) Biodiversity

(B) Climate Change

(C) Global Warming

(D) Ozone Layer

15. Which one of the following is not responsible for Open University and Distance Education promotion of the country ?

(A) FM Radio

(B) Gyandarshan

(C) Eklavya

(D) NRCVE and JANSHALA

16. The National Curriculum Framework, 2005 emphasises on —

(A) learning by rote method

(B) making examinations tough and threatening

(C) making examinations more flexible and non-threatening

(D) disconnecting knowledge to life outside the school

17. A deductive theory is one that allows/involves/uses —

(A) theory to emerge out of the data

(B) testing an explicitly defined hypothesis

(C) for finding to feedback into the stock of knowledge

(D) qualitative method whenever is possible

18. Match List I with List II and select the correct answer from the codes given below.

List I	List II
1. Nalin Mehta	(i) Indira Gandhi
2. National Herald	(ii) The Hindu
3. Readers' Editor	(iii) Behind a Billion Screens : What Television Tells Us About Modern India
4. R. K. Laxman	(iv) Pt. Jawaharlal Nehru
	(v) Tripura Times
	(vi) The Common Man
	(vii) Educational Television in India : Challenges and Issues
	(viii) Graham Greene

Codes :	1	2	3	4
(A)	(iii)	(i)	(v)	(vi)
(B)	(vii)	(i)	(viii)	(v)
(C)	(iii)	(iv)	(ii)	(vi)
(D)	(vii)	(vi)	(ii)	(iii)

19. **Statement :** All scientists working in America are talented. Some Indian scientists are working in America.

Conclusions :

I : None of Indian scientists is talented.

II : Some talented Indian scientists have migrated to America.

III : All talented scientists are Indians.

IV : Some Indian scientists are talented.

The conclusion(s) correctly drawn is (are) —

(A) II only

(B) II and III

(C) I and IV

(D) II and IV

20. FTP stands for :

(A) File Transfer Program

(B) File Transit Protocol

(C) File Transit Program

(D) File Transfer Protocol

21. Carbon monoxide is harmful for man because —

(A) it damages kidney

(B) it changes the pH of body

(C) it competes with oxygen in blood

(D) it is carcinogenic

22. Which of the following body/ bodies is/are, at present, involved in accreditation of institutions of higher education ?

(i) University Grants Commission

(ii) All India Council for Technical Education

(iii) National Assessment and Accreditation Council

(iv) Association of Indian Universities

(v) National Board of Accreditation

(vi) National Council of Educational Research and Training

(A) only (iii)

(B) (i), (ii), (iii)

(C) (iii), (iv), (vi)

(D) (iii), (v)

23. In a Lecture session, if the teacher is not able to answer a question of a student, what should be the appropriate action of the teacher ?

(A) He/she should say that he/she will offer an answer after consultation.

(B) Rebuke the student for disturbing the class

(C) Immediately discourage the student by saying that the question is wrong

(D) Apologise for his/her ignorance

24. The type of study which is loosely structured and designed to expand understanding of a topic and provide insights is —

(A) formal

(B) causal

(C) exploratory

(D) experimental

25. The number of digits in ISSN is :

(A) 6

(B) 8

(C) 12

(D) 14

26. If $A+B=2C$ and $C+D=2A$, then which of the following is true ?

(A) $A+C=B+D$

(B) $A+C=2D$

(C) $A+D=B+C$

(D) $A+C=2B$

27. In some language, "EXAM" is coded as 'FYBN'. In the same language, what will be the code for "RESULT" ?

(A) SFTVMU

(B) REPTUY

(C) ERICCART

(D) KYLEBROW

28. Let us consider the following two statements. State whether the statements are true or false using the codes given below :

I. IFSC is 11-character alpha-numeric code.

II. MICR is a 9-digit numeric code.

Codes :

(A) I is true, II is true

(B) I is true, II is false

(C) I is false, II is true

(D) I is false, II is false

29. List I gives the names of institutes of National importance and List II gives the names of locations. Match List I with List II and select the correct answer from the codes given below.

List I	List II
1. Space Application Centre	(a) Shimla
2. National Institute of Nutrition	(b) Shillong
3. National Institute of Immunology	(c) Hyderabad
4. Indian Institute of Petroleum	(d) New Delhi
	(e) Dehradun

Codes :	1	2	3	4
(A)	(b)	(c)	(d)	(e)
(B)	(a)	(b)	(d)	(e)
(C)	(c)	(d)	(a)	(b)
(D)	(d)	(e)	(a)	(c)

30. "Excellence since 1817" is the motto of a university of India. The university is :

(A) Presidency University

(B) University of Madras

(C) University of Calcutta

(D) University of Mumbai

31. Twelve people from various walks of life are members of Chandrapur Club. By picking lots, any one of them will host a dinner for all once in a month. The number of dinners, a given member has to host in one year is :

(A) 30

(B) 31

(C) 52

(D) cannot be predicted as number of days in a year is not fixed

32. The average age of four members of a family is 19 years. After two years, their average age will increase nearly by —

(A) 8·5%

(B) 10·5%

(C) 15·8%

(D) 12·8%

33. Find the number that comes next in the series —

	49	
?	1	4
9	25	16

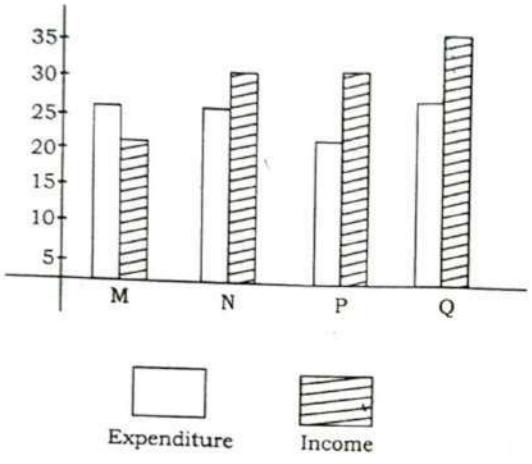
(A) 28

(B) 19

(C) 14

(D) 3

34. Income and Expenditure (in lakhs) of four companies in the year 2019 is given below in the form of bar diagram.



Which company earned the maximum percentage of profit in the year 2019 ?

(A) M

(B) N

(C) P

(D) Q

35. Assume the following statement to be true.

Some of the cricket players are tennis players, some tennis players are hockey players, no cricket player is a hockey player.

Which of the following diagrams correctly represents the above statement ?

(A) 
(B) 
(C) 
(D) 
36. Full form of SWAYAM is :

(A) Self Web of Action for Young Aspiring Minds

(B) Study Webs of Action for Young Aspiring Minds

(C) Study Webs of Active-Learning for Young Aspiring Minds

(D) Self Web of Active-Learning for Young Aspiring Minds

37. What is the meaning of "Technological Gatekeeper" ?

(A) A method of giving current awareness services

(B) A method of technology assessment and evaluation

(C) A process of transfer of information technology

(D) An informal mechanism of keeping the user informed of relevant developments

38. Hicky's Bengal Gazette is also known as :

(A) The Calcutta Advertiser

(B) The Original Calcutta Advertiser

(C) The Calcutta General Advertiser

(D) The Original Calcutta General Advertiser

39. The average of three numbers is 'V'. If one of the numbers is 'Z' and the other 'Y', what is the remaining number ?

(A) ZY – V

(B) $\left(Z/V\right) - 3 - Y$

(C) $\left(Z/3\right) - V - Y$

(D) 3V – Z – Y

40. Consider the following four groups of statements. Select the group(s) for which the third statement can be logically deduced using both the preceding two statements, but not just from one of them.

(i) X is an actor. Some actors are pretty. X is pretty.

(ii) Some men are cops. All cops are brave. All brave people are cops.

(iii) All actors are brave. Some men are actors. Some men are brave.

(iv) All actors are pretty. X is not an actor. X is not pretty.

(A) (i) only

(B) (ii) and (iii)

(C) (iii) only

(D) (iv) only

41. It aims to collect, preserve, and disseminate entire intellectual output of our country and provide online access from school level to postgraduate level, including technical education.

(A) National Digital Library

(B) National Academic Library

(C) National Digital Depository

(D) National Academic Depository

42. Problem of harnessing renewable energy is because of the following reasons :

(1) Sources are diffused.

(2) Collection and utilization is expensive.

(3) Energy from renewable sources cannot be converted to electricity.

(4) Unit cost of energy generated is high.

Give the correct answer from the codes given below :

Codes :

(A) 2 and 3 are correct

(B) 1 and 3 are correct

(C) 3 and 4 are correct

(D) 1 and 2 are correct

43. The 93rd Constitutional Amendment Bill 2001, provides the Provision for —

(A) nutritional status to pupils 6–14 yrs. age group.

(B) focus on girls belonging to reserved category in depressed areas.

(C) Shiksha Karmi Schools in socio-economically backward areas (Rural & Urban).

(D) All of the above.

44. The best educational programme is one which is according to the —

(A) need of the child

(B) ability of the child

(C) interest of the child

(D) All of these alongwith the need of the society

45. 'Action research' means —

(A) a longitudinal research

(B) an applied research

(C) a research initiated to solve an immediate problem

(D) a research with socio-economic objective

46. Failure on the part of a teacher to communicate the ideals and ideas well to the students may result in —

(A) classroom indiscipline

(B) loss of student's interest in the topic being taught and underestimate of the teacher

(C) increased number of absentees in the class

(D) decreased number of high-scoring marks in exams

47. Let us consider the following figure.

1 4	13
0	? 40

The appropriate number in the ? mark is :

(A) 43

(B) 49

(C) 67

(D) 121

48. If every alternative letter of the English alphabet from B onwards (including B) is written in lower case (small letters) and the remaining letters are capitalized, then how is the last month of the first half of a year written ?

(A) jUnE

(B) dECEMbEr

(C) dECEmbER

(D) juNE

49. The first page that is displayed of any website is known as :

(A) Banner page

(B) Master page

(C) Home page

(D) Face page

50. Artificial ripening of fruits can be done by a gas obtained by reacting —

(A) Zinc and sulphuric acid

(B) Calcium carbonate and hydrochloric acid

(C) Calcium carbide and water

(D) Potassium permanganate and hydrochloric acid

Note : There are **fifty (50)** questions. The questions carry **two (2)** marks each.

1. Ozone layer in outer atmosphere protects us from :

(A) Cosmic Rays

(B) UV–C

(C) UV–B

(D) Both (B) and (C)

2. Match each item of List I with the right item of List II and select the correct match from the codes given below :

List I	List II
1. Sunderlal Bahuguna	(i) tuberculosis
2. Murlidhar Devidas Amte	(ii) Khejri tree
3. Amrita Devi	(iii) green revolution
4. Verghese Kurien	(iv) Chipko Movement
	(v) leprosy
	(vi) pinus roxburghii
	(vii) iron-wood tree
	(viii) White Revolution
	(ix) Narmada Bachao Movement

Codes	1	2	3	4
(A)	(ii)	(iv)	(v)	(ix)
(B)	(iv)	(v)	(ii)	(viii)
(C)	(iv)	(i)	(vi)	(viii)
(D)	(ix)	(v)	(vii)	(iii)

3. Horizontal equivalent is the horizontal distance between two successive lines which is called—

(A) isobaths

(B) latitudes

(C) isobars

(D) contours

4. Consider the following conversation :

Ritam : I just heard that Julie had failed in her annual examination.

Niha : That can't be true; her class attendance is more than 90%.

From the conversation it can be inferred that —

(A) Niha knows that Ritam is a liar

(B) Ritam knows that Julie has actually failed in her annual examination

(C) Niha assumes that whoever is regular in class cannot fail in the examination

(D) Niha assumes that in order to pass the examination one has to be regular in class.

Gyan prakash assam

5. The arithmetic mean of four integers was computed as 15. Later it was seen that the number 10 was wrongly taken to be 30. What will be the correct mean of the numbers ?

(A) 35

(B) 5

(C) 20

(D) 10

6. 84000 is a publishing concern which aims to translate all of :

(A) Valmiki's works

(B) Buddha's words

(C) Muhammad's words

(D) Guru Teg Bahadur's words into modern languages.

7. Theory or Research which comes first ?

(A) Theory, because it provides insight.

(B) Research, because that is the only way one can develop the theory.

(C) It depends on one's point of view.

(D) The question is meaningless because one cannot have one without the other.

8. Full form of MOOC is

(A) Mass-Oriented Open Course

(B) Massive Open Online Course

(C) Mass-Oriented Online Course

(D) Mass Online Open Course.

The following table gives the percentage of marks obtained by five students in three different subjects in an examination. Study the table and answer the questions based on it. The numbers within brackets give the total marks in each subject. (Question numbers **9** to **13**)

Subject (Total marks) / Students	English (150)	Mathematics (120)	General Studies (100)
S	90	90	60
T	80	100	40
X	60	100	50
Y	90	80	70
Z	80	70	80

9. What is the aggregate of marks obtained by T in all the three subjects ?

(A) 200

(B) 250

(C) 280

(D) 340

Gyanprakash asram

10. What is the overall percentage of Y ?

(A) 80

(B) 81·35

(C) 83·35

(D) 85

11. The number of students who have obtained 60% or above in all the subjects is

(A) 2

(B) 3

(C) 4

(D) 5

12. Average marks obtained in English by the 5 students is

(A) 90

(B) 100

(C) 110

(D) 120

13. How many students have secured more than 100 marks in Mathematics ?

(A) 5

(B) 4

(C) 3

(D) 2

14. For improvement of Science Education in schools, the National Policy on Education does not have provision for :

(A) Training for Science and Mathematics teacher

(B) Science kits to upper primary schools

(C) Library facilities in Secondary and Senior Secondary schools

(D) Facilities for free admission and tuition fees for SC/ST rural girls with STAR Marks is class X final examination.

15. Which one of the following is an ISRO Satellite which can also be used for defence purpose ?

(A) Astrosat

(B) INSAT

(C) Oceansat

(D) RISAT

(A) Data Feeding Diagram

(B) Data Flow Diagram

(C) Data Feeding Device

(D) Data Flow Device

17. Consider the following statement followed by the assumptions numbered I and II.

Statement : If you have any problems, bring them to me.

Assumptions : I — You have some problems.

II — I can solve any problem.

Choose the correct option from below :

(A) Only assumption I is implicit in the statement

(B) Only assumption II is implicit in the statement

(C) Neither I nor II is implicit in the statement

(D) Both I and II are implicit in the statement.

18. The population of Guwahati was 3000 on 31st December of a particular year. In the next calendar year, population increases by 4% and in the subsequent calendar year it is decreased by 3%. What was the total population after the two calendar years ?

(A) 3208

(B) 3028

(C) 2028

(D) 3026

19. Match List I with List II and select the correct answer from the codes given below :

List I (newspapers)	List II (published from)
1. The Tribune	(i) Manipur
2. The Sangai Express	(ii) Assam
	(iii) Sikkim
3. Deccan Herald	(iv) Chandigarh
4. Hindustan Times	(v) Karnataka

39. Himadri is :

(A) A seismic centre in the Himalayas

(B) A missile testing range in Odissa

(C) A space application centre in Nicobar Island

(D) Indian station for geological studies in the Arctic region.

40. Which of the following monitors user activity on the Internet and transmits that information in the background to someone else ?

(A) Malware

(B) Spyware

(C) Worm

(D) Virus

41. The kind of knowledge that we get by the assumption of similarity between two different kinds of knowledge is known as :

(A) Arthapatti Pramana

(B) Anupalabddhi Pramana

(C) Shabda Pramana

(D) Upamana Pramana

42. The value of

$\frac{1}{2} \times \frac{1}{3} \div \frac{1}{5}$ of $\frac{1}{6}$ is

(A) 5

(B) 1

(C) $\frac{1}{6}$

(D) $\frac{5}{36}$

43. Which one of the following is not a component of communication ?

(A) Sender or source and message and signal.

(B) Medium or channel of communication.

(C) The receiver or destination.

(D) Speaking-listening, writing-reading.

Sivan prakash assam

Read the passage and answer Question Nos. **44** to **47**.

Not only does the lack of education among the women make the dissemination of nutrition education difficult, it appears to be a major obstacle to campaigns for family planning. It is significant that one of the most successful family planning efforts has been in Korea where literacy is over 80 per cent. Thailand, Singapore, Hongkong and Taiwan have also had more satisfactory results than, for example, Afghanistan, Pakistan, Bangladesh, India or Indonesia, where a large proportion of the female population is illiterate. The educational level of women is significant also because it has a direct impact on their chances of employment; and the number and percentage of employed women in a country's total labour force has a direct bearing on both the Gross National Product (GNP) and the disposable income of the individual family. In our country, Kerala and Mizoram have achieved cent percent literacy, but Bihar, Jharkhand and Rajasthan are lagging far behind inspite of the best endeavour initiated by the HRD ministry through the governments concerned and the NGOs.

44. Korea has been successful in family planning because the Korean women are —

(A) well-educated

(B) well-educated and well-employed

(C) literate enough to understand its significance

(D) exposed to nutrition education.

45. The countries where family planning programmes have been satisfactory are :

(A) Korea and Indonesia

(B) Thailand, Singapore, Korea, India and Hong Kong

(C) Thailand, Afghanistan, Korea and Pakistan

(D) Taiwan, Hong Kong, Korea, Thailand and Singapore.

46. According to the passage, lack of education among the women has a direct bearing on —

(A) the GNP of the country

(B) her chances of getting an elite job

(C) total labour force of the country

(D) her knowledge of nutritional value of food.

Gyan prakash assam

47. One of the most disadvantages of the lack of education among women is that they —

(A) cannot be persuaded to plan their families

(B) do not know how to cook and the value of nutritious food

(C) cannot earn more money

(D) cannot communicate with outsiders well.

48. Communication normally means —

(A) establishment of a common understanding through transfer of meaning from one person to another

(B) stimulation of common symbols in various minds through symbolic interaction

(C) creation of meaning in others through stimulus response activities

(D) All of the above.

49. Match List I with List II and select the correct answer from the codes given below :

List I	List II
1. Descriptive research	(i) is based on the measurement of quantity or amount
2. Applied research	(ii) is that related to some abstract idea(s) or theory
3. Fundamental research	(iii) includes surveys and fact-finding enquiries of different kinds
4. Quantitative research	(iv) aims at finding a solution for an immediate problem facing a society or an industrial / business organisation
	(v) is mainly concerned with generalisations and with the formulation of a theory.

Jahangir at Ajmer. We dwelt in great detail on The Victories of Clive at Plassey and elsewhere. ... All we know of Calcutta was the 'Black Hole' ... Until I went to St. Xavier's College, Calcutta. There I met and encountered Indians who were equal if not superior to me in wit, wisdom, culture, even English literature. I was a founder member with Utpal Dutt of his first troupe of actors — The Amateur Shakespearians. I wrote articles for St. Xavier's College Magazine when P. Lal was editor. I mingled with Minu Doha, Tarun Roy, Peter Banerjee, Romen, the ebullient son of Sir 'Byron' Mookerjee and others. With some there developed friendships that lasted. But the impact of all on me was definite and irremovable.

But I must record in detail the impact of one. My relationship with him was very temporary. He was not an intellectual, certainly not one of the *literati*. He was not even in our Christian Hostel. But as Indian Independence approached there was a fear of recurrence of the terrible riots that shook Calcutta exactly a year previously. The Hindu hostilities were evacuated from their Lower Circular Road Hostel to our Christian Hostel, safe in the grounds of the college in Park Street. There came the question of a Hostel Entertainment to celebrate Independence. Some of us felt in our hearts that it was an occasion to be mourned rather than celebrated. But prudence induced silence. At any rate we would boycott the show. Then Tamuli approached me. He was the acknowledged leader of the Hindu Hostilities. A tall, casually good-looking Assamese, he had underivable charm of manner. He asked me if I would organise the English section of Independence celebrations. It was not the fact of his request that turned me but the manner of it and his dealings with me in the subsequent days of preparation. Here was an Indian whose approach was neither subservient not affected nor insolvent with the pride of new found nationalism. He was gentle, modest, sincere, yet with underivable dignity."

— R. H. Lesser.

9. Who was the first Ambassador to India of an English Monarch ?

(A) James I

(B) Sir Thomas Roe

(C) Emperor Jahangir

(D) Williamson

46. Excessive amount of mercury in drinking water associated with certain types of industrial pollution have been shown to cause Hobson's disease. Village R has an economy based entirely on agriculture; modern industry of any kind is unknown. The people of village R have an unusually high incidence of Hobson's disease.

Which of the following can be validly inferred from the above statement?

(i) Mercury in drinking water is perfectly safe.

(ii) Mercury in drinking water must have sources other than industrial pollution.

(iii) Hobson's disease must have causes other than mercury in drinking water.

(A) (ii) only

(B) (iii) only

(C) (i) or (iii) but not both

(D) (ii) or (iii) or both

47. Ramen : I wish you would not drink so much beer. It's bad for your health.

Ajoy : How can you say that? I don't weigh a kilo more than I did a year ago?

Which of the following responses would most strengthen Ramen's argument?

(A) You weigh 10 *kg* more than you did 5 years ago

(B) Most people who drink a lot of beer do put on weight

(C) If you keep drinking so much beer, you will soon put on weight

(D) Putting on weight is not the only harmful effect of drinking beer

48. Consider the following two statements :

(1) All A's are B's

(2) Some D's are A's

Which one of the following four statements do not follow from the above statements?

(A) Some D's are B's

(B) Some B's are D's

(C) All D's are B's

(D) Some A's are D's

49. Hari (H), Gita (G), Irfan (I) and Saira (S) are siblings (i.e. brothers and sisters). All were born on 1st January. The age difference between any two successive siblings (i.e. born one after another) is less than 3 years. Given the following facts:

(i) Hari's age + Gita's age > Irfan's age + Saira's age.

(ii) The age difference between Gita and Saira is 1 year. However, Gita is not the oldest and Saira is not the youngest.

(iii) There are no twins.

In what order were they born (oldest first) ?

(A) H S I G

(B) S G H I

(C) I G S H

(D) I H S G

50. Match List I with List II and select the correct answer from the codes given below :

List I (Grassland)	**List II (Location)**
1. Veld	(i) South Africa
2. Meadows	(ii) Central Asia
3. Downs	(iii) Australia
4. Steppes	(iv) Russia

Codes :	1	2	3	4

Instructions for the Candidates

PAPER – I

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using the codes below :

Assertion (Ass) : The earth's outer core is liquid.

Reason (R) : The S-seismic wave cannot pass through the earth's outer core.

Codes :

(A) Both Ass and R are not correct.

(B) Both Ass and R are correct and R is the correct explanation.

(C) Ass is wrong and therefore the R has no value.

(D) Both Ass and R are correct but R is not the correct explanation of Ass.

2. Match the following river dams to the States they belong and select the correct match from the codes given below :

a.	Umtru	i.	Assam
b.	Lower Subansiri	ii.	West Bengal
c.	Maithon	iii.	Odisha
d.	Hirakud	iv.	Meghalaya

Codes	a	b	c	d
(A)	i	ii	iii	iv
(B)	iv	i	ii	iii
(C)	ii	iii	iv	i
(D)	iii	iv	i	ii

3. Match the following and select the correct match from the codes given below :

a.	Barchan	i.	Youth stage of rivers
b.	Waterfalls	ii.	Mature stage of rivers
c.	Moraines	iii.	Wind action deposits
d.	Meanders	iv.	Glacial deposits

Codes	a	b	c	d
(A)	iii	i	ii	iv
(B)	iii	i	iv	ii
(C)	iii	iv	i	ii
(D)	i	ii	iv	iii

4. Acid rains in some industrial cities are due to

(A) excessive release of SO_2 by industries and coal gas

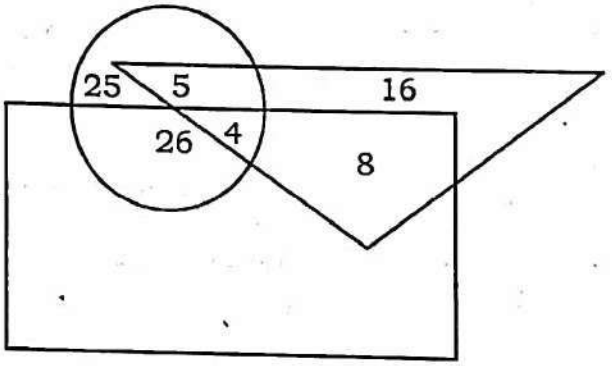
(B) excessive release of CO_2 by burning of fossil fuel

(C) excessive concentration of SO_2 and NO_2 in air by deforestation

(D) population explosion, deforestation and release of CO_2 by automobile exhausts.

Gyanprakash assam

5. In the following diagram, the rectangle represents students, the triangle represents professors and the circle represents musicians.



How many professors are both students and musicians ?

(A) 4

(B) 5

(C) 9

(D) 30

6. The following table indicates the examination scores of students in mathematics.

Scores	Number of Students
90 - 99	15
80 - 89	147
70 - 79	157
60 - 69	175
50 - 59	167
40 - 49	161
30 - 39	149
20 - 29	23
10 - 19	6

What is the percentage of students whose scores lie between 40 and 79 ?

(A) 65%

(B) 66%

(C) 67%

(D) 68%

7. Study the following incomplete table referring to number of students and average examination scores of students belonging to two sections.

Sections	Number of students	Average examination scores
Section 1	$N_1 = 43$	$M_1 = 60$
Section 2	$N_2 =$	$M_2 = 70$

If the average examination score of students of the two sections combined is 67·5, then what is the number of students in section 2 ?

(A) 55

(B) 56

(C) 57

(D) 58

8. Balen has an annual income of Rs. 2500. He spends 10 per cent on education. Then 20% of the remaining income is spent on housing. The remaining 15 per cent is deposited in the saving schemes and the rest of the income is spent on food and clothes. What percentage of income does the gentleman spend on food and clothes ?

(A) 55%

(B) 60%

(C) 61·2%

(D) 64·1%

Gyan prakash assam

9. Who among the following is not a Nobel Prize Winner ?

(A) Amartya Sen

(B) C. V. Raman

(C) Rabindra Nath Tagore

(D) Homi Jehangir Bhaba

10. Match List I with List II and select the correct match from the codes given below :

List I (Scientists)	List II (Field of specialisation)
1. Subrahmanyan Chandrasekhar	(i) Geology
2. Shanti Swarup Bhatnagar	(ii) Genetics
3. Srinivas Iyengar Ramanujan	(iii) Chemistry
4. M. S. Swaminathan	(iv) Statistics
	(v) Mathematics
	(vi) Astrophysics

Codes	1	2	3	4
(A)	vi	iii	v	ii
(B)	iii	v	iv	i
(C)	vi	iii	iv	i
(D)	ii	v	vi	iv

11. Match List I with List II and select the correct match from the codes given below :

List I (Abbreviations)	List II (Associated field)
1. AIU	(i) Agriculture
2. CSIR	(ii) Aeronautics
3. IARI	(iii) Education
4. ISRO	(iv) Research on science and industry
	(v) Research on space
	(vi) Robotics

Codes	1	2	3	4
(A)	iii	iv	i	v
(B)	iv	v	ii	vi
(C)	ii	v	i	iv
(D)	iii	vi	ii	v

12. Which of the following is the correct expansion of the abbreviation NCTE ?

(A) National Curriculum for Teacher Education

(B) National Council for Technical Education

(C) National Council for Teacher Education

(D) National Committee for Technical Education.

Gyan prakash assam

13. Match List I with List II and select the correct match from the codes given below :

List I (Commissions)	List II (Years of appointment)
1. Indian Education Commission	(i) 1905
2. Secondary Education Commission	(ii) 1917
3. University Education Commission	(iii) 1948
4. Calcutta University Commission	(iv) 1952
	(v) 1964
	(vi) 1968

Codes	1	2	3	4
(A)	v	iv	iii	ii
(B)	iv	v	ii	iii
(C)	vi	iv	iii	i
(D)	iii	vi	i	v

14. Who among the following is not a Bharat Ratna recipient ?

(A) Dr. C. V. Raman

(B) Dr. M. Visvesharaya

(C) Dr. Amartya Sen

(D) Dr. V. K. R. V. Rao.

15. The set of computer programmes that manage the hardware / software of a computer is called

(A) Computer system

(B) Operation system

(C) Operating system

(D) None of these.

16. Consider the following statements about internet facility.

I. It serves as the largest online information system

II. It provides the most dependable and latest mode of sending Email

III. Recurring expenditure on communicating Email is very high

IV. It is often misused and has triggered cyber crimes.

Which of these statements are correct ?

(A) I, II and IV

(B) I and IV

(C) II, III and IV

(D) II and III

17. The study of interaction between living organism and environment is known as

(A) autoecology

(B) ecology

(C) limacology

(D) ecosystem.

18. Match List I with List II and choose the correct match from the codes given below :

List I (Persons)	List II (Countries of their birth)
1. Charles Darwin	(i) Germany
2. Albert Einstein	(ii) France
3. Karl Marx	(iii) Austria
4. Sigmund Freud	(iv) Prussia
	(v) England
	(vi) Hungary

Codes	1	2	3	4
(A)	ii	i	v	iv
(B)	v	i	iv	iii
(C)	v	iv	i	vi
(D)	i	iii	ii	v

19. Match List I with List II and choose the correct match from the codes given below :

List I (Major Contribution)	List II (Persons)
1. Theory of Relativity	(i) Gregor Mendel
2. Periodic Table	(ii) Ivan Pavlov
3. Basic Principle of Heredity	(iii) Charles Darwin
4. Theory of Evolution	(iv) Albert Einstein
	(v) Neils Bohr
	(vi) Mendeleev

Codes	1	2	3	4
(A)	iv	vi	i	iii
(B)	v	ii	i	iii
(C)	iv	v	vi	i
(D)	i	iii	vi	ii

20. Match List I with List II and choose the correct match from the codes given below :

List I (Books)	List II (Their Authors)
1. India Wins Freedom	(i) Jawaharlal Nehru
2. Discovery of India	(ii) Bhimrao Ramji Ambedkar
3. The Accidental Prime Minister	(iii) Rabindra Nath Tagore
4. Gitanjali	(iv) Abul Kalam Azad
	(v) Humayun Kabir
	(vi) Sanjoy Baro

Codes	1	2	3	4
(A)	iv	iii	ii	v
(B)	iv	i	vi	iii
(C)	ii	vi	iii	i
(D)	v	iv	i	vi

21. Which of the following skills are needed for present day teachers to adjust effectively with the class room teaching ?

1. Knowledge of technology
2. Use of technology in teaching learning
3. Knowledge of student's needs
4. Content mastery.

(A) 1 & 3

(B) 2 & 3

(C) 2, 3 & 4

(D) 2 & 4

22. Given below are the two statements, one is Assertion (Ass) and the other is Reason (R).

Assertion (Ass) : The aerosol of the suspended particles in the atmosphere can bring about a change in climate of the region.

Reason (R) : Each of the suspended particles takes part in interactive processes established amongst them including the short waves and infra-red rays.

Select the correct answer using codes below :

Codes :

(A) Both Ass and R are true but R is not the correct explanation of Ass.

(B) Both Ass and R are true and R is the correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

23. Match the following and select the correct match from the codes given below :

a. Tehri Dam	1. Ganga
b. Sardar Sarovar	2. Beas and Satluj
c. Indira Gandhi Canal	3. Narmada
d. Nagarjuna Sagar	4. Krishna
	5. Bhagirathi

Codes	a	b	c	d
(A)	5	3	2	4
(B)	5	3	2	1
(C)	5	3	4	2
(D)	5	3	1	2

24. Read the following two statements — Assertion (Ass) and Reason (R) and select the correct answer using codes below :

Assertion (Ass) : Robert Clive defeated Siraj-ud-Daulah in the Battle of Plassey.

Reason (R) : Clive's army was superior and followed superior military tactics.

Codes :

(A) Both Ass and R are correct and R is the correct explanation of Ass.

(B) Both Ass and R are correct but R is not a correct explanation of Ass.

(C) Ass is correct, but R is incorrect.

(D) Ass is incorrect, but R is correct.

25. An interactive tool (program) that provides an interface between the users and information available on the www is known as

(A) OPERATING SYSTEM

(B) WEB BROWSER

(C) SEARCH ENGINE

(D) URL.

26. What is 'ILLIAC'?

(A) Super Computer

(B) Mini Computer

(C) Main Frame Computer

(D) None of the above.

27. Which of the following is not an example of an operating system?

(A) Windows 98

(B) BSD Unix

(C) Microsoft Office XP

(D) Red Hat Linux.

28. Which of the following is the correct expanded form of INFLIBNET?

(A) Information on library network

(B) Information and learning network

(C) Information and library network

(D) None of the above.

29. Of the following, which is the most desirable outcome of teaching in higher education?

(A) Increase in students achievement

(B) Increase in level of independent thinking of students

(C) Higher percentage of result

(D) Increase in the number of students who opt for the subject.

30. The present growth rate of world's human population is in its

(A) lag phase

(B) exponential phase

(C) sigmoid phase

(D) none of the above.

31. A researcher uses statistical techniques in his problem to confirm

(A) whether worthwhile inferences could be drawn

(B) whether the data could be quantified

(C) whether appropriate statistical techniques are available

(D) whether analysis of data would be possible.

Gyan prakash asstt

32. The research that applies the laws at the time of field study to draw more and more clear ideas about the problem is

(A) action research

(B) experimental research

(C) applied research

(D) survey research.

33. Which of the following is a paramount requirement of a researcher ?

(A) Scientific thinking

(B) Scientific feeling

(C) Scientific behaviour

(D) Scientific attitude.

34. The 'Times of India' came into being with the merger of

(A) 'The Bombay Times' and 'The Courier'

(B) 'The Standard' and 'The Telegraph'

(C) 'The Standard' and 'The Courier'

(D) Both (A) and (B).

35. Decoding is associated with

(A) message sender

(B) message receiver

(C) both of the above

(D) none of the above.

36. With which of the following proposition about research you do not agree ?

(A) Research improves the quality of teaching

(B) Research contributes to social progress of the country

(C) Research is a joy in itself

(D) Research leads to finding solutions.

37. The main objective of public broadcasting system i.e. Prasar Bharati is

(A) Inform, Entertainment and Education

(B) Entertain, Information and Interaction

(C) Educate, Interact and Entertain

(D) Entertainment only.

38. What is the essential step for an effective communicator ?

(A) Selection of the channel for communication

(B) Thinking about the evaluation procedure

(C) Determining the objectives of communication

(D) Identifying various mediums of communication.

Gyan prakash assam

39. The work of Messenger is

(A) to develop a message

(B) to encode the message

(C) to transmit the message

(D) all of the above.

40. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using codes below :

Assertion (Ass) : There is population explosion in India.

Reason (R) : India has failed to check the fertility rate.

Codes :

(A) Ass is true, but R is false

(B) Ass is false, but R is true

(C) Both Ass and R are true but R is not the correct explanation of Ass

(D) Both Ass and R are true and R is the correct explanation of Ass.

41. What will be the number in the empty box ?

6	96
10	16

8	104
5	13

9	135
6	

(A) 13

(B) 15

(C) 17

(C) 28 : 34 : 66

(D) 20 : 44 : 77

45. If 41=5, 23=5, 212=5, 11111=5 then 2592496 is equal to

(A) 9

(B) 5

(C) 3

(D) 1

46. Insert the three missing letters

AKR : DNU : : IUO : ---

(A) LXR

(B) LRX

(C) JVP

(D) KWQ

47. **Statements :**

a. All graduates are Mexicans.

b. All Mexicans are males.

Conclusions :

I. Some males are graduates.

II. All males are Mexicans.

III. Some Mexicans are graduates.

IV. All Mexicans are graduates.

On the basis of the two statements given at the top, which two conclusions are correct?

(A) I and III

(B) I and IV

(C) II and III

(D) II and IV

48. Which of the following is the correct sequence in descending order of two persons using as mother tongue

1. Bengali 2. Marathi 3. Tamil 4. Telegu

Select the correct answer using codes given below —

(A) 1, 4, 3, 2

(B) 1, 2, 4, 3

(C) 1, 4, 2, 3

(D) 4, 2, 1, 3

Gyan prakash assam

49. Following are two statements — One Assertion (Ass) and the other Reason (R). Examine them and find the correct answer.

Assertion (Ass) : The urban population in India is more than that of the USA.

Reason (R) : The level of urbanisation in USA is higher than that of India.

Codes :

(A) Both Ass and R are true and R is the correct explanation of Ass.

(B) Both Ass and R are true, but R is not the correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

50. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using the codes below :

Assertion (Ass) : Proper drainage system, together with encroachment on Bharalu, Bahini and Wetlands like Silsako, Bondajan, Deepor beel have caused flood mainly in Nabin Nagar, Tarun Nagar, R. G. Barooah Road, G. S. Road and Lachit Nagar.

Reason (R) : Proper eviction drive, irrespective of political affiliation and pressure, is to be carried out by the administration to get rid of the flood.

Codes :

(A) Both Ass and R are true and R is the correct explanation of Ass.

(B) Both Ass and R are true, but R is not the correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

51. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using the codes below :

Assertion (Ass) : Areas near the equator receive rainfall throughout the year.

Reason (R) : High temperature and high humidity cause convectional rain in most afternoons near the equator.

Codes :

(A) Both Ass and R are correct and R is the correct explanation of Ass.

(B) Both Ass and R are true, but R is not the correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

52. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using the codes below :

Assertion (Ass) : The frequency of floods in the plains of Northern India including the Brahmaputra plain has increased during the last couple of decades.

Reason (R) : There has been duction in the depth of river valleys due to deposition of silt.

Codes :

(A) Both Ass and R are true and R is the correct explanation of Ass.

(B) Both Ass and R are true, but R is not a correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

Akash assam

53. Read the following two statements — Assertion (Ass) and Reason (R) and find the correct answer using the codes below :

Assertion (Ass) : The Koyana (Koyna) region of Maharashtra is likely to become more earthquake prone in near future.

Reason (R) : The Koyna dam is located on the old fault-plane which may get activated more frequently with changes in water level in Koyna reservoir.

Codes :

(A) Both Ass and R are true and R is the correct explanation of Ass.

(B) Both Ass and R are true, but R is not the correct explanation of Ass.

(C) Ass is true, but R is false.

(D) Ass is false, but R is true.

Read the following passage and answer the question Nos. **54** to **58**.

One day when I was in the fifth standard at the Rameswaram Elementary School, a new teacher came to our class. I used to wear a cap which marked me as a Muslim, and I always sat in the front row next to Ramanadha Sastry, who wore a sacred thread. The new teacher could not stomach a Hindu priest's son sitting with a Muslim boy. In accordance with our social ranking as the new teacher saw it, I was asked to go and sit on the back bench. I felt very sad, and so did Ramanadha Sastry. He looked utterly downcast as I shifted to my seat in the last row. The image of him weeping when I shifted to the last row left a lasting impression on me.

After school, we went home and told our respective parents about the incident. Lakshmana Sastry summoned the teacher, and in our presence, told the teacher that he should not spread the poison of social inequality and communal intolerance in the minds of innocent children. He bluntly asked the teacher to either apologise or quit the school and the island. Not only did the teacher regret his behaviour, but the strong sense of conviction Lakshmana Sastry conveyed ultimately reformed this young teacher.

On the whole, the small society of Rameswaram was very rigid in terms of the segregation of different social groups. However, my science teacher Sivasubramania Iyer, though an orthodox Brahmin with a very conservative wife, was something of a rebel. He did his best to break social barriers so that people from varying backgrounds could mingle easily. He used to spend hours with me and would say, "Kalam, I want you to develop so that you are on par with the highly educated people of the big cities."

One day, he invited me to his home for a meal. His wife was horrified at the idea of a Muslim boy being invited to dine in her ritually pure kitchen. She refused to serve me in her kitchen. Sivasubramania Iyer was not perturbed, nor did he get angry with his wife, but instead, served me with his own hands and sat down beside me to eat his meal. His wife watched us from behind the kitchen door. I wondered whether she had observed any difference in the way I ate rice, drank water or cleaned the floor after the meal. When I was

Gyan Prakash ASSAM

leaving his house, Sivasubramania Iyer invited me to join him for dinner again the next weekend. Observing my hesitation, he told me not to get upset, saying, "Once you decide to change the system, such problems have to be confronted." When I visited his house the next week, Sivasubramania Iyer's wife took me inside her kitchen and served me food with her own hands.

54. Whom do you think to be the author of the above write-up ?

(A) Maulana Abul Kalam Azad

(B) Dr APJ Abdul Kalam

(C) KA Abbas

(D) K Ataturk.

55. The meaning of the word "stomach" in the first paragraph is

(A) to eat greedily

(B) colic

(C) to tolerate

(D) abdomen.

56. The new teacher sent the author to sit on the back bench because

(A) he was not attentive

(B) he was wearing a cap

(C) he was sitting near a Hindu priest's son

(D) he was a terrible nuisance.

57. Who regretted his own behaviour ?

(A) The new teacher

(B) Ramanadha Sastry

(C) Lakshmana Sastry

(D) Sivasubramania Iyer.

58. Sivasubramania Iyer was something of a rebel because

(A) he was fighting against the British

(B) he did his best to break social barriers

(C) he was an orthodox Brahmin

(D) he married a progressive lady.

59. Burning of fossil fuels is the main source of pollution due to

(A) nitrogen oxide

(B) nitric acid

(C) nitrous oxide

(D) sulphur dioxide.

60. The slogan "A tree for each child" was coined for

(A) Environmental protection programme

(B) Clean air programme

(C) Soil conservation programme

(D) Social forestry programme.

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. Which one of the following is not a method of evaluation ?

   (A) Oral examination

   (B) Case study

   (C) Observation

   (D) Interview

2. As a method of evaluation, which of the following is least appropriate for small children ?

   (A) Written examination

   (B) Interview

   (C) Oral examination

   (D) Observation

3. With which of the following propositions about research you do not agree ?

   (A) Research is a joy in itself

   (B) Research improves the quality of teaching

   (C) Research contributes to social progress of the country

   (D) Research leads to finding solution

4. Research and Development (R & D) has now become the index of development of a country because —

   (A) R & D reflect the true economic and social conditions prevailing in a country

   (B) R & D targets the human development

   (C) R & D can improve the standard of living of the people in a country

   (D) All of the above

5. Evaluate the following statements in terms of whether each is a fact, opinion, prejudice or advice.

   a) Women are not suitable for police service.

   b) In democracy, no party should be in power for too long.

   c) Have proper rest, even during the examination time.

   d) Obesity is a risk factor for coronary heart disease.

   Which of the following is the correct alternative ?

   Codes

	Opinion	Prejudice	Fact	Advice
(A)	b	c	d	a
(B)	b	a	d	c
(C)	c	a	d	b
(D)	b	d	c	a

Gyan prakash assam

6. In the following, interrogative is followed by two arguments, one beginning with 'yes' and the other with 'no'. Pick-up the correct answer choice from the answer choices given below.

Should free education be imparted in Indian schools ?

I. Yes, because India is a democratic country.

II. No, because free education will lead to unemployment of the educated people.

(A) Only argument I is forceful

(B) Only argument II is forceful

(C) Both arguments I and II are forceful

(D) Neither argument I nor II is forceful

7. At the primary stage most of the school teachers should be women with charming personality because they —

(A) know basic content better than men

(B) are available on lower salary payment and obedient than male

(C) can interact and teach children better than men

(D) can deal with pupil with love and affection

8. Child labour can best be eradicated if the following is done for the concerned children

(A) appropriate laws are enacted and enforced

(B) schools are opened and free lunch (MDM) is provided

(C) employees of child labourers are punished and children are sent to school

(D) employment is provided to parents and free education given to children

9. Meaningful learning takes place when :

(A) the new content being taught is related to the previous knowledge of the students

(B) students raise questions and get them clarified from the teacher

(C) students are interested in the topics taught

(D) explanations are given within the reach of the students

Gyan prakash assam

10. Which of the following is the most forceful argument to support the statement that 'women must be given fifty per cent reservation in State Assembly and Parliamentary election in India' ?

(A) Women constitutes about fifty per cent of the total population

(B) This will facilitate the optimum use of human resources

(C) This will fulfill the constitutional requirement of not discriminating on the basis of sex

(D) Women have so far been marginalised in public and political life

11. Which of the statements noted below has the high probability of being correct as applied to higher education ?

(A) All students can not learn and so all do not learn

(B) All students can learn but all do not learn

(C) All students can learn and so all learn

(D) All students can not learn but all want to learn

Read the following passage and answer the question Nos. **12** to **16**.

Today I would like to discuss with all of you an important area, that is "Energy Security" — a transition to total "Energy Independence". Energy is the lifeline of modern societies. But today, India has 17 per cent of the world's population, and just 0·8 per cent of the world's known oil and natural gas resources.

Our annual requirement of oil is 114 million tonnes. A significant part of this is consumed in the transportation sector. We produce only about 25 per cent of our total requirement. The import cost today of oil and natural gas is over ₹ 120,000 crore. Oil and gas prices are escalating ; the barrel cost of oil has doubled within a year.

Energy security, which means ensuring that our country can supply the lifeline of energy to all its citizens, at affordable costs at all times, is thus a very important and significant need and is an essential step forward. But it must be considered as a transition strategy, to enable us to achieve our real goal, that is energy independence or an economy which will function well with total freedom from oil, gas or coal imports.

12. What per cent of our annual consumption of oil is imported ?

(A) 25%

(B) 40%

(C) 75%

(D) 95%

Gyan Prakash Pilania

13. What per cent of the world's known oil and natural gas is possessed by India ?

(A) 17%

(B) 0·8%

(C) 8%

(D) 25%

14. Within a year, the cost of a barrel of oil has increased by

(A) 50%

(B) 75%

(C) 100%

(D) 150%

15. According to the author, what is the lifeline of modern societies ?

(A) Oil

(B) Gas

(C) Coal

(D) Energy

16. Energy independence means an economy with total freedom from import of

(A) Consumer goods

(B) Fossil fuels

(C) Food items

(D) Technology

17. Seven persons A, B, C, D, E, F, and G are sitting on a bench facing east such that

i) C is at the immediate right of D,

ii) B is at the extreme end and has E as his neighbour,

iii) G is between E and F,

iv) D is sitting third from the south end.

Who is at the immediate right of F ?

(A) A

(B) B

(C) C

(D) D

18. The appropriate number in the box of the sequence

7, 8, 16, 43, 107, ☐ is

(A) 171

(B) 214

(C) 232

(D) 253

Gyan prakash assam

19. Today is Monday. What will be the day after 141 days ?

(A) Monday

(B) Tuesday

(C) Wednesday

(D) Thursday

20. Fill in the blank with the appropriate number

DIBRUGARH 385641267
BARK 5269 KING 9801
GRAND _____

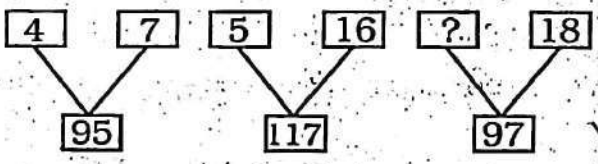
(A) 62031

(B) 25460

(C) 16203

(D) 12789

21. Find the missing number



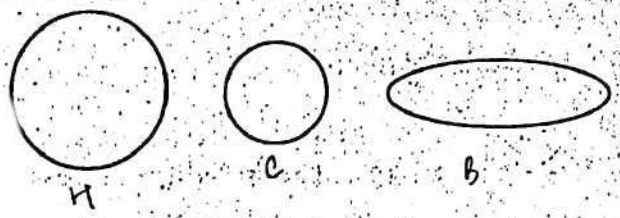
(A) 3

(B) 7

(C) 11

(D) 15

22. In the diagram below, the big circle represents Hindus, the small circle represents Christians, and the ellipse represents Bengalis.



Which of the following diagrams represents Bengalis belonging to Hindu and Christian religion.

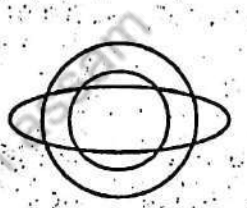


Fig 1

23. Two statements are given below followed by four conclusions. Which conclusion is correct?

Statements :

I. All integers are rational numbers.

II. All natural numbers are integers.

Conclusions :

(A) All natural numbers are rational numbers

(B) All rational numbers are integers

(C) All integers are natural numbers

(D) No integer is a natural number

24. Consider the following statement—

"If a number is divisible by 8, then it is divisible by 4."

Which of the following is equivalent to the above statement?

(A) If a number is divisible by 4, then it is divisible by 8

(B) If a number is not divisible by 4, then it is not divisible by 8

(C) If a number is not divisible by 8, then it is not divisible by 4

(D) A number is divisible by 8 if and only if it is divisible by 4

25. Consider the following statement—

"Bezbaroa is a poet and Khuswant Singh is a novelist."

The negation of the above statement is

(A) Bezbaroa is not a poet and Khuswant Singh is not a novelist

(B) Bezbaroa is a poet or Khuswant Singh is not a novelist

(C) Bezbaroa is not a poet or Khuswant Singh is a novelist

(D) Bezbaroa is not a poet or Khuswant Singh is not a novelist

26. I denotes

(A) Universal Affirmative Proposition

(B) Universal Negative Proposition

(C) Particular Affirmative Proposition

(D) Particular Negative Proposition

Gyan Prakash Asram

27. The question given below is followed by two arguments, viz. I and II.

Should academics be debarred from joining active politics in India?

Arguments

I. Yes, they are not good at politics

II. No, this is against the rights of a citizen in a democratic country like India.

Choose the correct answer from the following

(A) Only the argument I is strong

(B) Only the argument II is strong

(C) Neither argument I nor argument II is strong

(D) Both the arguments I and II are strong

28. Insert the three missing letters

KRA : NUD : : UOI : _____

(A) WQK

(B) XRL

(C) YSM

(D) VPJ

29. Two statements (I and II) are given below.

I. Change in latitude and altitude causes variation in biodiversity.

II. The hot spots are the richest and the most threatened reservoirs of plant and animal life on the earth.

Which of the following is correct?

(A) Both I and II are true

(B) I is true, but II is false

(C) I is false, but II is true

(D) Neither I nor II is true

30. Medha Patkar is associated with

(A) Bhoodan Andolan

(B) Chipco Movement

(C) Namami Gange Project

(D) Narmada Bachao Andolan

Gyan prakash essay

31. A unit used in the comparison of two power levels relating to electrical signals or sound intensities, one of the pair usually being taken as a standard, is

(A) ampere

(B) centimo

(C) decibel

(D) hertz

32. The ocean lying between Europe and Africa to the east and North and South America to the west is

(A) Atlantic Ocean

(B) Indian Ocean

(C) Pacific Ocean

(D) Southern Ocean

33. Large treeless plains in South America are known as

(A) Tundra swan

(B) Madeira

(C) Pampas

(D) Selva

34. Formation of ozone hole in the Antarctic region has been a cause of concern. What could be the major cause behind ?

(A) Increased temperature at polar region due to global warming

(B) Formation of prominent tropospheric turbulance and inflow of CFC's

(C) Presence of prominent polar front and stratospheric clouds and inflow of CFC's

(D) Absence of polar front and stratospheric clouds and inflow of methane and CFC's

35. A high-level programming language developed in Europe at the same time as FORTRAN was being developed in the United States is

(A) ALGOL

(B) BASIC

(C) BITNET

(D) C sharp

36. LED stands for

(A) Light Emitting Disc

(B) Light Emitting Diode

(C) Liquid Emitting Display

(D) Light Electronic Disc

37. A file that contains data no longer in use, but held for historical purposes, perhaps for auditors, is

(A) Archive File

(B) Batch File

(C) Dead File

(D) Old File

38. A term used to refer to equipment which uses components like transistors and valves to control the current is

(A) Electronic

(B) The Web

(C) Electromechanical

(D) Electromagnetic

39. A computer performs its all mathematical and logical calculations through

(A) CPU

(B) Memory Unit

(C) Output Unit

(D) Visual Display Unit

40. The memory of a computer is commonly expressed in terms of kilobytes or megabytes. A bite is made up of

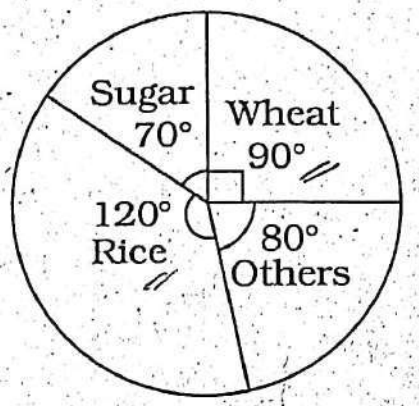
(A) eight binary digits

(B) two binary digits

(C) eight decimal digits

(D) two decimal digits

The following pie diagram gives the annual agricultural production of a certain place.



Study the above diagram and answer the questions given below (No. **41** to No. **45**)

41. If the total production is 6120 metric ton, match List I with List II and select the correct answer from the code given below

List I (Items)	List II (Production)
1. Wheat	(i) 2260
2. Sugar	(ii) 1360
3. Rice	(iii) 1530
4. Others	(iv) 2040
	(v) 1190
	(vi) 1360

Codes	1	2	3	4
(A)	(iii)	(v)	(iv)	(vi)
(B)	(i)	(v)	(iv)	(ii)
(C)	(iv)	(v)	(i)	(vi)
(D)	(iii)	(i)	(iv)	(v)

42. If the production of wheat is 1275 metric ton, the production of rice is

(A) 125000kg

(B) 170000kg

(C) 1250000kg

(D) 1700000kg

43. The production of wheat is less than production of rice by

(A) 15%

(B) 20%

(C) 25%

(D) 30%

44. If the price of rice is first increased by 20% and then decreased by 20%, the net change in the price of rice is

(A) no change

(B) 1% increase

(C) 2% decrease

(D) 4% decrease

45. If the price of wheat is first increased by 2% and then again increased by 1%, the net increase is

(A) 3·5%

(B) 3·2%

(C) 3·02%

(D) 3%

46. The following table indicates the marks of students in an examination on English

Marks	Number of students
90-99	27
80-89	147
70-79	157
60-69	173
50-59	167
40-49	162
30-39	147
20-29	14
10-19	6

What is the percentage of students whose scores are above 60 but below 80?

(A) 30%

(B) 31%

(C) 32%

(D) 33%

Gyan prakash assam

47. Match List I with List II and select the correct match from the codes given below:

List I (Commissions)	List II (Chairpersons)
1. Secondary Education Commission	(i) D. S. Kothari
2. Calcutta University Commission	(ii) A. L. Mudaliar
3. Indian Education Commission	(iii) Asutosh Mukherjee
4. University Education Commission	(iv) S. Radhakrishnan
	(v) M. E. Sadler
	(vi) J. P. Naik

Codes	1	2	3	4

PAPER – I

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. Of the following two statements one is Assertion (Ass) and the other Reason (R). Examine these two statements and decide if (Ass) and the (R) are individually true and if so whether (R) is the correct explanation for the given (Ass)

Assertion (Ass) : The Marathas emerged as the strongest native power in India after the decline of Mughal empire.

Reason (R) : The Marathas were the first to have a clear concept of a united Indian nation.

Codes :

(A) Both Ass and R are individually true and R is the correct explanation of Ass.

(B) Both Ass and R are individually true but R is not the correct explanation of Ass

(C) Ass is true but R is false

(D) Ass is false but R is true.

2. Of the following two statements one is Assertion (Ass) and the other is Reason (R). Examine these two statements and decide if Ass and R are individually true and if so whether R is the correct explanation for the given (Ass). Select your answer using Codes given below :

Assertion (Ass) : The boiling point of water decreases as the altitude increases.

Reason (R) : The atmospheric pressure increases with the increase in altitude.

Codes :

(A) Both Ass and R are individually true and R is the correct explanation of Ass.

(B) Both Ass and R are individually true but R is not the correct explanation of Ass

(C) Ass is true but R is false

(D) Ass is false but R is true.

3. Of the following two statements — one is Assertion (Ass) and the other Reason (R). Examine these two statements and decide if (Ass) and (R) are individually true and if so whether (R) is correct explanation for the given (Ass). Select the correct answer from the codes given below :

Assertion (Ass) : A piece of copper and a piece of tinted glass are heated to the same temperature. When touched thereafter the copper piece appears hotter than the glass piece.

Reason (R) : The density of the copper is more than that of glass.

Codes :

(A) Both Ass and R are individually true and R is the correct explanation of Ass.

(B) Both Ass and R are individually true but R is not the correct explanation of Ass

(C) Ass is true but R is false

(D) Ass is false but R is true.

4. Of the following, the main purpose of state certification of teachers is to

(A) Monitor the quality of teacher training institutions.

(B) Provide for a uniform standard of entry-level teacher competency throughout the state.

(C) Exclude from the profession those who are not trained in pedagogy.

(D) Exclude from the profession those who are mentally unhealthy.

5. A successful teacher would do well to avoid the following. Express your responses as 'True' or 'False' using Codes given below :

a) Stating opinions as facts.

b) Under promise his performance goals and over perform.

c) While interacting with outsiders does not reveal too much about his Head of institution

d) Avoids admitting ignorance.

Codes	a	b	c	d
(A)	False	True	True	False
(B)	True	False	True	True
(C)	True	False	False	True
(D)	False	False	True	False

Gyan prakash assam

6. The following statements describe certain characteristics of a teacher who is trying to succeed in the profession. Which of these are 'True' and which are 'False'. Indicate using codes.

a) Admits if something wrong is said or done.

b) Feedback from students is not sought.

c) Takes pains to connect with students.

d) Does not care about his style of work.

Codes	a	b	c	d
(A)	True	False	True	False
(B)	True	True	False	False
(C)	True	True	True	False
(D)	False	True	True	False

7. Match the terms given under Column I with the corresponding meanings given under Column II and indicate your responses using codes given below :

Column I	Column II
a) Data	1. Basis to make prediction of outcome of actions
b) Information	2. Processed information usable as formal / official record.
c) Knowledge	3. Basic facts and entities
d) Document	4. Meaningful matter usable in decision making.

Codes	a	b	c	d
(A)	3	2	1	4
(B)	3	4	1	2
(C)	4	3	2	1
(D)	3	1	4	2

8. Match the names of certain important days given under Column I with the corresponding dates, given under Column II, on which they are observed / celebrated, using codes given below :

Column I	Column II
a) Teachers' Day	1. November 14
b) International Literacy Day	2. June 5
c) Children's Day	3. September 5
d) World Environment Day	4. September 8

Codes	a	b	c	d
(A)	4	3	2	1
(B)	3	4	1	2
(C)	3	2	1	4
(D)	2	4	1	3

9. Criticism referring to the authenticity of data source is called —

(A) Empirical Criticism

(B) Constructive Criticism

(C) External Criticism

(D) None of the above

10. Choose the appropriate alternative given in the codes to replace the question mark

Pleader – Client, Examiner – Examinee, Preceptor – ?

(A) Path-finder

(B) Perceiver

19. Which of the following is the correct sequence for writing a thesis ?

(A) statement of the problem → sample → objectives → analysis → significance of the study → interpretation

(B) objectives → sample → statement of the problem → significance of the study → analysis → interpretation

(C) statement of the problem → objectives → sample → analysis → interpretation → significance of the study

(D) objectives → statement of the problem → significance of the study → sample → analysis → interpretation

20. Match Set A with Set B

Set A :

(i) Teacher researchers rectify difficulties in teaching mathematics in Class VIII

(ii) A researcher administers a pre test and post test and gives a treatment in between.

(iii) A researcher administers an achievement test on a sample & generalizes about the population

(iv) A researcher looks up manuscripts to find out about a great educationist.

Set B :

(a) experimental research

(b) survey research

(c) historical research

(d) action research

Use Codes below to point the correct match

Codes	i	ii	iii	iv
(A)	a	b	c	d
(B)	d	c	b	a
(C)	d	a	b	c
(D)	b	d	a	c

21. Mass Communication

(A) is meant for delivering messages to the residents of a city.

(B) does not need technology-based media vehicles.

(C) is an impersonal tool for delivering information to the masses.

(D) is more effective than dyadic communication so far as rich is concerned.

22. Find the number that comes next in the sequence
8, 15, 24, 35 ...

(A) 37

(B) 42

(C) 48

(D) 35

23. Informal Communication network within the organisation in known as .

(A) interpersonal communication

(B) intrapersonal communication

(C) mass communication

(D) grapevine communication

24. Find the missing word in the following sentence from the choices given below :
_____ is the meaningful outcome of processed data.

(A) Knowledge

(B) Information

(C) Output

(D) Summary

25. Statistical observation arranged in chronological order is called—

(A) Regression

(B) Progression

(C) Time Series

(D) Logitudinal research

Read the following passage and answer the **five** questions that follow :

Many traditional Japanese beliefs and practices hark back to prehistoric customs and most of these form the core of Shinto, the only major religion indigenous to Japan. Indian Buddhism, the Chinese contributions of Confucianism and Taoism (transmitted first through the cultural bridge of Korea), and, much later, Christianity were introduced to Japan from outside. All these foreign traditions have undergone significant transformations in a process of mutual influence with the native tradition.

In Judaism and Christianity religion entails faith in one supreme deity; revelation of the will of this deity in a sacred book; concern with sin as disobedience to the deity; relation of man to divinity through a conscious decision or act of faith; specific ecclesiastical organisations, involving regular attendance and worship; and ethical behaviour linked directly to this religious commitment.

Japanese religion differs significantly on each of the aforementioned points; there are not one but many deities, there is no one sacred book, but many religious scriptures; rather than emphasis on sin as disobedience to the deity there is concern with ritual impurity and purification. One person usually participates in more than one religious tradition; there is no regular

© prakashasam

worship day comparable to the Sabbath but many seasonal festivals; and ethical codes are more closely related to family life and philosophy than to organised religion, while ethical shortcomings are not related directly to divine will but are considered in terms of human imperfection.

26. How is sin interpreted in Judaism and Christianity ?

(A) Thought and action taken against other beings.

(B) Violation of socio-cultural norms.

(C) Disobedience to supreme deity.

(D) Deviant behaviour causing hurt to others.

27. What is the status of religious books / scriptures in Japanese religion ?

(A) A single sacred book followed

(B) Several religious scriptures followed

(C) No sacred book

(D) None of the above.

28. What is the important day of worship according to Japanese religion ?

(A) Wednesday

(B) No day prescribed

(C) Any day of the week

(D) All seasonal festival days.

29. Which is the major religious tradition of Japan ?

(A) Shinto

(B) Confucianism

(C) Buddhism

(D) Taoism,

30. How are ethical shortcomings explained in Japanese religion ?

(A) As isolation against religious authority.

(B) Thoughts against divine will

(C) As human imperfections

(D) All of the above

31. Identify the pattern in the following sequence and choose the number that will come next.

6, 19, 58, 175, 526, ?

(A) 1669

(B) 1579

(C) 1578

(D) 1668

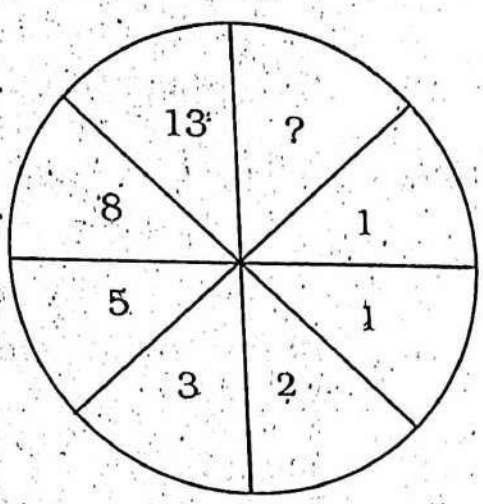
32. Choose the correct number to fill up the blank



(A) 13

(B) 22

(C) 2

(D) 21

33. The maximum number of triangle with

3 points as vertices is 1

4 points as vertices is 4

5 points as vertices is 10

What is the maximum number of triangle with 6 points as vertices :

(A) 20

(B) 25

(C) 30

(D) 40

34. The missing number in the following sequence is

1, 9, 25, 49, ☐

(A) 64

(B) 81

(C) 100

(D) 121

35. In a class of 50 students, all study Mathematics or English, or both. The Mathematics class consists of 25 students, and the English class consists of 30 students. Is this possible ?

(A) Not possible, because 25+30=55, which is more than 50.

(B) Possible, because there may be students who come from other classes.

(C) Not possible, because there should be 25 students in the English class.

(D) Possible, because some students have been added twice.

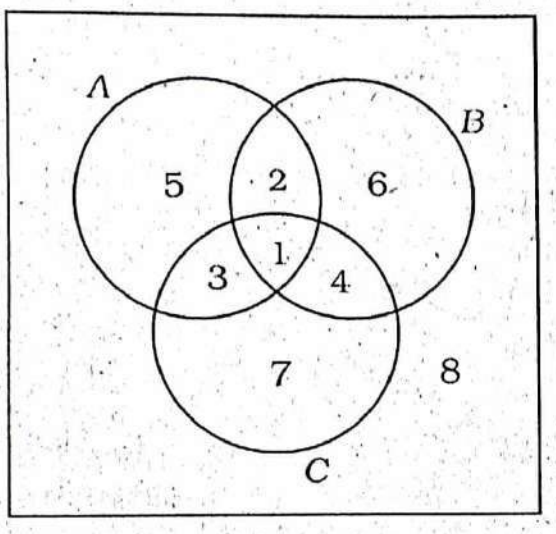
36. Consider the Venn diagram of Sets A, B and C in *figure*-1. Observe that these sets partition the rectangle (universal set) into 8 numbered sets denoted by 1, 2, 3, 4, 5, 6, 7 and 8. Match the following relation of two columns and find the correct answer from the codes given below :



figure–1

Column-1	Column-2
a) $A \cap B^c \cap C^c$	1. 6
b) $A^c \cap B \cap C^c$	2. 7
c) $A^c \cap B^c \cap C$	3. 8
d) $A^c \cap B^c \cap C^c$	4. 5

Codes	a	b	c	d
(A)	2	3	4	1
(B)	3	4	1	2
(C)	4	1	2	3
(D)	1	2	3	4

37. In an examination 25% fails in Mathematics, 15% fails in Physics and 5% fails in both. The number of students that passes in both the subjects is 130. The total member of students appeared in the examination is

(A) 200

(B) 300

(C) 350

(D) 400

38. The sum of the series $1+2+3+\ldots\ldots\bullet+5$ is

(A) 35

(B) 45

(C) 55

(D) 65

39. The marks secured by 10 students in a class are :
38, 70, 48, 40, 42, 55, 63, 46, 54, 44 and the median of the distribution is 47. The number of students in percentage securing above the median is

(A) 50%

(B) 40%

(C) 30%

(D) 20%

40. Four students W X Y Z appeared in two papers I and II in the Test. Their scores out of 100 are given below :

	I	II
W	80	62
X	73	71
Y	90	50
Z	56	85

Who has obtained the highest average ?

(A) W

(B) X

(C) Y

(D) Z

41. The number of students in a school is given below :

	Boys	Girls
Class VI	56	62
Class X	58	29

Select True or False statements for the following :

(i) The numbers of boys in Class VI & X are nearly equal.

(ii) The number of girls has decreased considerably in Class X.

(iii) The number of boys and girls is nearly the same in Class X.

(iv) Girls tend to stay on and complete schooling.

Codes	i	ii	iii	iv
(A)	False	True	False	True
(B)	True	True	False	False
(C)	True	True	False	True
(D)	True	False	False	False

42. Twelve people form a club. By picking lots, any one of them will host a dinner for all once in a month. The number of dinners a given member has to host in one year is

(A) one

(B) zero

(C) two

(D) cannot be predicted.

43. Full form of WWW is

(A) World Wide Network

(B) Wide World Network

(C) World Wide Web

(D) Wide Web Network

44. A computer peripheral device that is used to read printed / handwritten / type written characters into machine encoded text thus enabling us to get the digitized text is

(A) OMR

(B) OCR

(C) Digital Camera

(D) Disk Driver

45. Which of the following is not a web browser ?

(A) Internet Explorer

(B) Mozilla Firefox

(C) Yahoo ,

(D) Chrome

50. Match the following river dams to the States they belong and select the correct match from the table given below :

1. Barapani Dam	a. Maharastra
2. Koina Dam	b. West Bengal
3. Damodar Valley Project	c. Orissa
4. Hirakud Dam	d. Karnataka
	e. Meghalaya

Codes	1	2	3	4
(A)	a	e	d	c
(B)	e	a	b	c
(C)	c	d	a	b
(D)	b	a	e	d

51. Following are two statements — one Assertion (Ass) and the other Reason (R). Find the correct answer from the codes below

Assertion (Ass) : Sea floor spreading hypothesis asserts that older and older portion of the sea floor move continuously further and further away from the mid-oceanic ridges.

Reason (R) : There is continuous injection of magma along the ridges.

Codes :

(A) (Ass) is true and (R) is the true explanation of it.

(B) (Ass) is true but (R) is not the explanation of (Ass)

(C) (Ass) is not true but (R) is true.

(D) Both (Ass) and (R) are not true.

52. Following are two statements — one Assertion (Ass) and the other Reason (R). Find the correct answer from the codes below

Assertion (Ass) : Unlike the hilly terrain around it, the Brahmaputra Valley, in spite of frequent flood havocs, is thickly populated by human beings.

Reason (R) : The alluvial soil deposited by the river is fertile and supports good cultivation.

Codes :

(A) (Ass) is true but (R) is not the correct explanation of it.

(B) (Ass) is true and (R) is the correct explanation of it.

(C) (Ass) is not true but (R) is true.

(D) Both (Ass) and (R) are not true.

53. Following are two statements — one Assertion (Ass) and the other Reason (R). Find the correct answer from the codes below

Assertion (Ass) : Volcanic eruptions issues highly toxic gases which cause death to many animals but standing human beings are usually spared of death.

Reason (R) : These gases are heavier than air and are spread at low levels along the surface of the earth.

Codes :

(A) (Ass) is correct but (R) is not the true explanation.

(B) (Ass) is not true, while (R) is true.

(C) (Ass) is true and (R) is the correct explanation to it.

(D) Both (Ass) and (R) are not true.

54. Which of the following socio-economic problems are related with over population

(A) food

(B) employment

(C) good fertility of soil

(D) all of these

55. For the first time environment was put as an Agendum of International Concern in the Stockholm Conference in the year of.

(A) 1972

(B) 1975

(C) 1982

(D) 1985

56. Chipko movement is

(A) a movement of political struggle

(B) an environmental movement

(C) a movement for independence

(D) a movement against corrupt political leaders.

57. Literary speaking the term "environment" means

(A) surroundings

(B) human beings

(C) natural phenomenon

(D) landscape

58. Lithosphere means

(A) Layer of gases

(B) Layer of sands

(C) Layer of gravels

(D) None of these

59. The main source of energy in an ecosystem is

(A) heat liberated during respiration

(B) heat liberated during fermentation

(C) sugar stored in plants

(D) sunlight (solar energy)

60. Which of the following are physiological manifestations of sound pollution.

(A) decrease of heart output

(B) damage of night vision

(C) fluctuation in blood pressure

(D) all of these

PAPER – I

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. Which one of the following Indians (or of Indian origin) is not a nobel laureate ?

   (A) Rabindranath Tagore

   (B) Mulk Raj Anand

   (C) V. S. Naipaul

   (D) Amartya Sen

2. The following are abbreviated names of four institutions of our Country :
   CSIR, IARI, ICMR, ICAR
   In the expansion of which does the word "Industrial" occur ?

   (A) CSIR

   (B) IARI

   (C) ICMR

   (D) ICAR

3. LPG stands for :

   (A) Localisation Privatisation Generalisation.

   (B) Liberalisation Provincialisation Generation

   (C) Legalisation Presentation Globalisation

   (D) Liberalisation Privatisation Globalisation

4. Find the odd man out in these anagrams.

   (A) GONAM

   (B) PATRRO

   (C) NABAAN

   (D) PLEAP

5. The term 'Computer literacy' means

   (A) Knowing what a computer can do and cannot do

   (B) Ability to write computer programs

   (C) Knowing the use of software packages useful in daily life

   (D) Ability to assemble computers.

6. Match Column I with Column II and choose the correct answer form the following code.

Column I (Symbols)	**Column II**
(a) $\not>$	(i) Equal to or less than
(b) $\neq$	(ii) Not greater than
(c) $\not<$	(iii) Equal to or greater than
(d) $\geq$	(iv) Not less than
	(v) Not equal to
	(vi) Less than but not equal to

Codes	a	b	c	d
(A)	ii	v	iv	iii
(B)	ii	iv	vi	iii

7. Success in a teaching profession depends upon :

(A) honesty and hard-word

(B) keeping student happy

(C) pleasing management authorities

(D) keeping the sanctity of the occupation

8. In an examination it was found that :

		Section P	*Section Q*
Number of students	=	45	55
Mean score	=	40	60

What is the mean score of the combined group

(A) 31

(B) 41

(C) 51

(D) 61

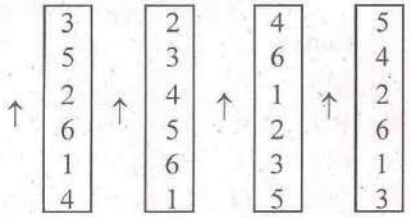
9. Benjamin S. Bloom identified the following six educational objectives (arranged here in alphabetical orders)

1. Analysis
2. Application
3. Comprehension
4. Evaluation
5. Knowledge
6. Synthesis

Arrange them hierarchically (from bottom upward)

Which of the following is the correct hierarchy ?

(A) (B) (C) (D)



10. Which one of the following is a cause of global warming ?

(A) Large scale deforestation.

(B) Volcanic eruptions

(C) Gradual decrease of Sun-Earth distance.

(D) Accumulation of green-house gases.

11. In a certain locality of a large city, most of the families belong to the middle class, except one industrialist's family whose income is one hundred times more than those of others. Which of the following measures of central tendency will be most appropriate as the average monthly income of the people in that locality ?

(A) Arithmetic Mean

(B) Geometric Mean

(C) Harmonic Mean

(D) Median

12.

The missing number and letter are :

(A) 22 and U

(B) 21 and U

(C) 22 and V

(D) 23 and T

13. Computers process data into information by working exclusively with

(A) multimedia

(B) numbers

(C) characters

(D) words

14. Check the Odd term out

(A) Internet

(B) Linux

(C) UNIX

(D) Windows

15. The main purpose of classroom communications is :

(A) To help pupils to pass examination.

(B) To complete the course on time.

(C) To enable pupils to select probable questions for examination.

(D) To help pupils to understand the topic in hand.

16. Which of the following is an essential characteristic of a teacher trying to aquire an 'achievement' mindset ?

(A) Positive orientation towards student achievement.

(B) Sincere concern for raising the reputation of his institution.

(C) Commitment towards duties of a teacher

(D) Persistence in achieving his objective or goal.

17. Who was the first Assamese to be appointed as Professor of Cotton College ?

(A) Krishna Kanta Handique

(B) Surjya Kumar Bhuyan

(C) Phanidhar Dutta

(D) Birinchi Kumar Baruah

18. The following table shows the scores of 10 students in two tests X and Y.

Scores in X	Scores in Y
15	12
18	15
9	10
15	16
18	18
12	10
15	12
16	13
14	12
22	19

The percentages of students getting 18 in test X and test Y are

(A) 20 and 10 respectively

(B) 20 and 20 respectively

(C) 10 and 20 respectively

(D) None of the above

Gyan prakash assam

19. Sustainable development means :

(A) Development not beyond what is absolutely necessary.

(B) As much development as is possible.

(C) Development that will not harm future generations.

(D) Development which is in tune with the development of the neighbouring countries.

20. The following are abbreviations used in writings on environmental management. The expanded forms appearing alongside may be True or False. Indicate your responses using the Codes given below.

a. ASTRA — Centre for Appropriate Science and Technology for Rural Areas.

b. NEED — Needs-oriented Economic and Ecological Development.

c. WIDER — World Institute for Development Economics Research

d. MINAS — Minimum National Standards.

27. After the reconstruction of the Quinton Hall at Shillong, devastated by the Great Assam Earthquake of 1897, Sir Henry Cotton — the then Chief Commissioner of Assam, invited the following person to inaugurate it :

(A) Rabindranath Thakur
(B) M. K. Gandhi
(C) Gunaviram Barooah
(D) Swami Vivekananda

Gyan prakash assam

28. Fill in the blank and choose the correct answer :

4 16 36 64 —

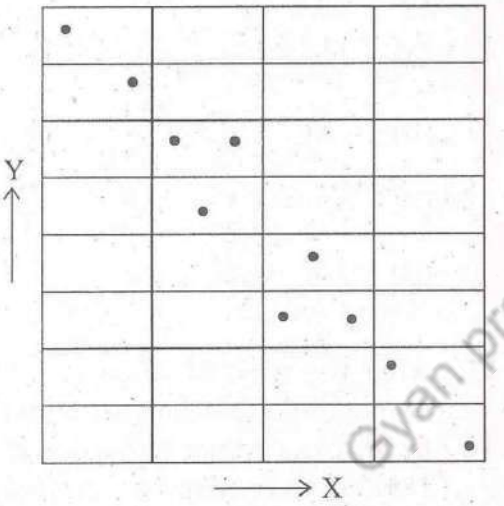
(A) 81

(B) 96

(C) 100

(D) 121

29. The scatter diagram shown below indicates the relative positions of ten individuals in two variables X and Y



What is the likely value of the coefficient of correlation between X and Y ?

(A) +0·2

(B) +0·8

(C) −0·2

(D) −0·8

30. The following are two statements — one is labelled as an assertion (Ass) and the other is labelled as reason (R).

Assertion (Ass) : The boiling point of water decreases as the altitude increases.

Reason (R) : Atmospheric pressure increases with the increase in altitude.

Which of the following is true ?

(A) Both Ass and R are individually true and R is the correct explanation of Ass.

(B) Both Ass and R individually true but R is not the correct explanation of Ass

(C) Ass is true but R is false

(D) Ass is false but R is true

31. In an industrial town delinquency among adolescent students is found to be increasing. To study this problem a college teacher undertakes a research project with the belief that delinquency is mainly due to lack of control of parents over their children. Such a belief — as a starting point — is known as :

(A) Thesis

(B) Antithesis

(C) Synthesis

(D) Hypothesis

Gyan prakash assam

32. A few men were ploughing in the field with a few bulls. Taking the men and bulls together, there were altogether 22 legs and 7 heads.

Say which one is true — the number of men and bulls were :

(A) 1 and 6

(B) 2 and 5

(C) 3 and 4

(D) 4 and 3

33. A teacher has to teach a class of students who are busy talking among themselves. He/She should :

(A) Start teaching and hope the students will listen.

(B) Call for attention and wait until the students are ready to listen

(C) Teach to the few students sitting in front

(D) Express displeasure and go out of the class.

34. The height of boy-students in the Higher Secondary level is found to be normally distributed with a mean of 66 inches and a standard deviation (S.D) of 2 inches.

What percentage of boys will fall between 64 inches and 68 inches ?

(A) 68%

(B) 78%

(C) 88%

(D) 98%

35. In an examination, 25% of the candidates failed in Mathematics and 12% in English. If 10% failed in both the subjects and 292 candidates passed in both the subjects, the total number of candidates who appeared in the examination was —

(A) 300

(B) 400

(C) 460

(D) 500

36. The following are two statements — one is an assertion (Ass) and the other is a reason (R).

Assertion (Ass) : There is no atmosphere on the moon's surface.

Reason (R) : Because the moon's gravitation is not sufficiently high to sustain an atmosphere.

Which one of the following is true ?

(A) Both Ass and R are true and R is the correct explanation of Ass.

(B) Both Ass and R true but R is not the correct explanation of Ass.

(C) Ass is true but R is false

(D) Ass is false but R is true

37. Match List I with List II and choose the correct answer from the code given below :

List I (Person)	List II (Field of Activity)
a. Hargovind Khorana	(i) Philosophy
b. Homi Jehangir Bhaba	(ii) Chemistry
c. Sarvepalli Radhakrishnan	(iii) History
d. Prafulla Chandra Roy	(iv) Biology
	(v) Statistics
	(vi) Physics

Codes	a	b	c	d
(A)	ii	i	iv	v
(B)	ii	v	iii	vi
(C)	iv	vi	i	ii
(D)	iii	v	ii	iv

38. The primary duty of the teacher is to :

(A) Raise the intellectual standard of the students

(B) Improve the physical standard of the students

(C) Help all-round development of the students

(D) Imbibe value system in the students.

39. The following are the scores of 9 students of section A and 10 students of section B of a certain class :

Section A	Section B
62	38
38	75
50	45
43	69
65	46
40	60
72	42
67	49
47	36
Median = 50	62

What percentage of students in section B are above the median score of section A, which is 50 ?

(A) 25%

(B) 30%

(C) 40%

(D) 45%

40. A research scholar has obtained a fairly high coefficient of correlation between two variables X and Y. Without considering any other factor, which of the following conclusion can the researcher safely jump into ?

(A) That X depends upon Y.

(B) That Y depends upon X.

(C) That both X and Y depend upon some common factor.

(D) That none of these.

41. The maximum number of points of intersection of

2 lines is 1

3 lines are 3

4 lines are 6

5 lines are 10

What is the maximum number of points of intersection of 6 lines ?

(A) 10

(B) 12

(C) 15

(D) 24

42. Every machine connected to the Internet has a unique address. What is that address known as ?

(A) URL

(B) IP address

(C) Internet Address

(D) Machine Address

43. P 40% of 300

Q 30% of 500

Which one of the following is true ?

(A) P is equal to Q

(B) P is greater than Q by 30

(C) P is less than Q by 30

(D) Q is less than P by 30

44. A research scholar wishes to study children's behaviour in relation to other children and adults. For this purpose, which of the following data-collection devices will be most suitable ?

(A) Questionnaire

(B) Interview

(C) Participant Observation

(D) Non-participant Observation.

45. Which of the following is not an application software ?

(A) MS-WORD

(B) MS-EXCEL

(C) MS-WINDOWS

(D) MS-POWERPOINT

Gyan prakash assam

Read the following passage and answer the questions — No. **46** to No. **50**

Research on the uses of atomic energy had been going on at a gradually accelerating pace since January, 1939, when Lise Meitner explained that the uranium atom could be split. The discovery opened up two divergent paths for its exploitation. Most physical scientists realized that nuclear energy , derived from the splitting, or fissioning, of the atom, might be used either to generate power for peaceful purposes or to create super-weapons. In general, however, it was the scientists who were personally acquainted with Hitler's New Order who first became most interested in the possible military uses of atomic energy and its effect on the existing balance of political power. Most American-born physicists were not originally so concerned with this aspect, because they had not yet become accustomed to thinking of new scientific truths in terms of their military applications. And from the beginning, of course, some of the physicists, both European and American, who considered the potential of atomic weapons were horrified at the thought of the devastation they might spread throughout the world.

46. Since January 1939, what kind of research was going on at an accelerating pace ?

(A) Spliting of atom

(B) Fission of uranium

(C) Uses of atomic energy

(D) Creation of super-weapon

47. What did Lise Meitner explain

(A) That power for peaceful purpose could be generated.

(B) That super-weapons could be created.

(C) That uranium atom could be split.

(D) None of these.

48. Who were personally acquainted with Hitler's New Order ?

(A) Politicians

(B) Engineers

(C) Journalists

(D) Scientists

49. In the passage, one sentence goes like this :

"The discovery opened up two divergent paths"

Here the word "discovery" is referred to :

(A) Hitler's New Orders

(B) That uranium atom could be split

(C) Uses of atomic energy

(D) Existing balance of power

csajanprakash assam

50. At the thought of possible devastation who were horrified ?

(A) Some of the American physicists.

(B) Some of the European physicists

(C) Some physicists, both European and American

(D) The American Government.

51. Which one of the following is not a former President of India ?

(A) Rajagopalachari

(B) Rajendra Prasad

(C) Sarvepalli Radhakrishnan

(D) V. V. Giri

52. Choose the missing numbers

3 5	7 20	13 51	21 104	? ?

(A) 31 and 185

(B) 30 and 185

(C) 31 and 195

(D) 30 and 195

53. DDT is a

(A) greenhouse gas

(B) degradable pollutant

(C) non-degradable pollutant

(D) none of the above

54. Which one of the following is a stored program machine ?

(A) Microprocessor

(B) Microcomputer

(C) Analog Computer

(D) Calculator

55. The term PC means

(A) Private Computer

(B) Personal Computer

(C) Professional Computer

(D) Personal Calculator

56. Which one from the following list is the correct answer to the statement that L-seismic wave can travel —

(A) Through the entire body of the earth.

(B) Only through the crust of the earth.

(C) Only through the crust and mantle of the earth.

(D) Only along the solid surface of the earth.

57. Which of the following is not an Input / Output unit of a computer ?

(A) Printer

(B) Monitor

(C) Scanner

(D) CPU

58. From the following list, identify the State where no oil and natural gas have been discovered.

(A) Meghalaya

(B) Arunachal Pradesh

(C) Assam

(D) Nagaland

59. Full form of MODEM is

(A) Modulator – Demodulator

(B) Modern Modulator

(C) Modulating – Demodulating Machine

(D) Modern Emulator

60. Which of the following is not a unit used to measure computer memory ?

(A) ZB

(B) GB

(C) TB

(D) CB

Time : 1¼ hours] **Test Booklet Code** [X] [Maximum Marks : **100**

Number of Pages in this Booklet : **12** Number of Questions in this Booklet : **60**

PAPER – I

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. While teaching English, various teachers keep in their mind the following objectives :

I. To increase vocabulary (stock of words).

II. To develop the skill of sentence construction.

III. To understand thoroughly the content of the lessons.

IV. To memorise answers to all probable questions.

Which of the following would you recommend as the correct objectives for a teacher of English to follow ?

(A) I and II

(B) III and IV

(C) II and III

(D) II and IV

2. Arrange the following teaching processes in order :

(i) relating the present knowledge with the previous knowledge.

(ii) evaluation

(iii) reteaching

(iv) formulating objectives

(v) presentation of materials

Select the correct code below :

(A)	i	ii	iii	iv	v
(B)	ii	i	iii	iv	v
(C)	v	iv	iii	i	ii
(D)	iv	i	v	ii	iii

3. Choose one from the following that will help a teacher to improve his teaching skills most :

(A) Workshop on teaching methodology

(B) Class-room interaction analysis

(C) Microteaching

(D) Practice teaching

4. Which of the following ideas should a teacher strive to develop in his students ?

(A) 'Express clearly', come what may.

(B) 'Stop worrying and start living'.

(C) 'What you think, you become'.

(D) All of the above.

5. Experts have identified, in general, the following four as methods of teaching :

I. Explanation of facts

II. Dictation of notes

III. Students' activity

IV. Discussion

Which combination do you think is suitable for teaching of science ?

(A) I and II

(B) I and III

(C) II and III

(D) II and IV

Gyan prakash Dasan

6. Gandhiji has given great importance to purposeful creative activity under the gamut of basic education. Which one of the following can be called purposeful creative activity ?

(A) embroidery
(B) dyeing
(C) making dolls with clay
(D) all of these

7. Teaching, as an interactive and interpersonal influence upon the learners, has been conceived in

(A) democratic notion of teaching
(B) autocratic notion of teaching
(C) Laissezfaire notion of teaching
(D) Gurukul System

8. Match List I with List II and select the correct match from the codes given below :

List I (Qualities of a test)	List II (Explanation)
1. Objectivity	(i) It means the ease with which the test can be administered and scored.
2. Satisfactory Norms	(ii) It means the accuracy with which the test measures whatever it measures.
3. Validity	(iii) It means whether or not it can be done again.
4. Reliability	(iv) It means the extent to which the test measures what it intends to measure.
	(v) It means the extent to which the scores are independent of the scorer.
	(vi) It means the standards with which scores can be compared.

Code	1	2	3	4
(A)	vi	iv	iii	ii
(B)	v	vi	iv	ii
(C)	v	iv	vi	i
(D)	iii	v	ii	iv

9. Which of the following sampling procedure gives each item an equal probability of being selected ?

(A) Systematic sampling
(B) Simple random sampling
(C) Quota sampling
(D) Stratified sampling

10. What is the criteria for a good hypothesis ?

(A) It should be precise, specific and consistent with most known facts.
(B) It should be formulated in such a way that it can be tested by the data.
(C) It should have a limited scope and should not have bad significance.
(D) All the above

11. Which of the following is / are essential qualities of a good research ?

(A) Good research is systematic
(B) Good research is logical
(C) Both (A) and (B)
(D) None of the above.

12. The research, which helps to build new theory, is called

(A) Action research
(B) Applied research
(C) Fundamental research
(D) Theoretical research

Gyan prakash assam

13. In research, the questions — what, how and why about the problem under study are related to —

(A) Research Process

(B) Research Summary

(C) Research outline or proposal

(D) Research Report

Read the following passage and answer the questions No. **14** to **18** :

The Second World War had its origin in Hitler's unwillingness to accept the terms of the Treaty of Versailles (1919). German forces invaded Poland on 1 September, 1939 and overran the country in four weeks. Britain and France declared war on Germany on 3 September but avoided major operations. In April 1940, the Germans occupied Denmark and Norway where allied troops resisted for two months. The invasion of Belgium and Holland on 10 May 1940 opened the period of "lightning war" (Blitzkrieg), in which penetration by German tanks and use of air power encompassed the fall of the Netherlands within four days, Belgium within three weeks, and France within seven weeks. Failure to secure air superiority over Britain frustrated Hitler's plans of invasion and, while continuing submarine attacks on British supply routes, the Germans moved eastwards, invading Yugoslavia and Greece in April 1941 and attacking Russia on a 2,000-mile front on 22 June in alliance with Finland, Hungary and Rumania. Relentless German advances in Russia brought them to the outskirts of Leningrad and Moscow and to the Volga, but from November 1942 they were gradually thrown back, the last invading forces being expelled from pre-war Russia in April 1944.

14. Which two countries declared war on Germany on 3 September 1939 ?

(A) Denmark and Norway

(B) Belgium and Holland

(C) Britain and France

(D) Poland and Belgium

15. The period of "lightning war", known as Blitzkrieg, started with the invasion of which two countries by Germany ?

(A) Poland and France

(B) Denmark and Norway

(C) Belgium and Holland

(D) Yugoslavia and Greece

16. The German attack on Russia lasted

(A) From 1939 to 1941

(B) From 1940 to 1944

(C) From 1940 to 1945

(D) From 1941 to 1944

17. In the German invasion of Russia, one of Germany's allies was :

(A) Rumania

(B) Yugoslavia

(C) Greece

(D) Holland

Bijay prakash assam

18. During the period from 1939 to 1941, Germany attacked several countries in Europe. Which of the following represents some of these countries correctly ?

(A) Belgium, Hungary, Yugoslavia

(B) Denmark, Norway, Finland

(C) France, Rumania, Denmark

(D) Poland, Belgium, Holland

19. Teacher's communication will be more effective if

(A) the teacher is a master in his/her subject,

(B) he/she prepares a good number of instructional aids,

(C) he/she discusses the previous year's question paper,

(D) he/she starts from what students already know.

20. When was the Education TV first introduced in India ?

(A) 1954

(B) 1958

(C) 1959

(D) 1970

21. Which of the following will not hamper effective communication in the class ?

(A) A statement which allows the listener to draw his/her own conclusions.

(B) A precise statement

(C) An ambiguous statement

(D) A lengthy statement.

22. Communication helps in

(A) Integration

(B) purchasing power

(C) Entertainment

(D) Persuasion.

23. If North-east is South, then South-east is

(A) South-west

(B) East

(C) North-east

(D) West

24. Satellite communication works through

(A) Radar

(B) Transponder

(C) Receptor

(D) Transmitter

25. The following is an incomplete sequence of letters. Find the letters which should come next

cd, xw, gh, ts ?

(A) zy

(B) ij

(C) kl

(D) vu

26. In the following sequence one number is wrongly included

13, 17, 19, 21, 23, 29, 31, 37

Which one is the wrong number ?

(A) 17

(B) 21

(C) 29

(D) 37

Gyan prakash assam

27. The appropriate number in the box of the sequence

2, 2, 4, 4, 6, 8, 8, ☐ is

(A) 10

(B) 12

(C) 14

(D) 16

28. What will be the number in the empty box ?

5	8
13	40

7	13
20	91

8	9
	72

(A) 12

(B) 17

(C) 52

(D) 62

29. Fill in the blank with the appropriate numbers

GUWAHATI 25683894 WHAT 6389

WAIT 6849 GHAT ——

(A) 2364

(B) 2369

(C) 2689

(D) 2389

30. There are five Sundays in a month. The first day of the month will be

(A) Monday

(B) Tuesday

(C) Thursday

(D) Saturday

31. Consider the following statement "If a number is divisible by 9, then it is divisible by 3".

Which of the following is equivalent to the above statement ?

(A) If a number is divisible by 3, then it is divisible by 9.

(B) If a number is not divisible by 9, then it is not divisible by 3.

(C) If a number is not divisible by 3, then it is not divisible by 9.

(D) A number is divisible by 9 if and only if it is divisible by 3.

32. In the following diagrams the big circle represents educated people, the small circle represents the residents in a locality and the ellipse represents people that are rich.

(I) 
(II) 
(III) 
(IV) 
In a locality it is found that all residents are educated and some residents are rich. This situation is represented by

(A) Fig. I

(B) Fig. II

(C) Fig. III

(D) Fig IV

33. **Statements :**

a. All Blacks are Americans

b. All Americans are Christians

Conclusions :

I. Some Christians are black

II. All Christians are Americans

III. Some Americans are black

IV. All Americans are black

On the basis of the two statements given at the top which conclusions are correct ?

(A) I and II

(B) I and III

(C) II and III

(D) II and IV

34. "NEVER TROUBLE TROUBLE TILL TROUBLE TROUBLES YOU"

Which of the following letters appear most in the statement shown above ?

(A) e

(B) o

(C) r

(D) t

35. The mental age (M.A.) of an exactly six-year old boy is six years and ten months. What is his nearest I.Q. ?

(A) 111

(B) 114

(C) 117

(D) 120

36. Match each item of the first list with the appropriate item of the second list and choose the correct match using code below :

First list	**Second list**
1. Montessori	(a) Austria
2. Froebel	(b) England
3. Dewey	(c) France
4. Rousseau	(d) Germany
	(e) Italy
	(f) Spain
	(g) USA

Codes	1	2	3	4
(A)	e	d	g	c
(B)	a	c	g	d
(C)	e	g	f	c
(D)	f	d	b	g

37. Which of the following statements is false ?

(A) If $3+4=7$, then $3>7$

(B) If $4>5$, then $5<6$

(C) If $3>7$, then $6>14$

(D) If $7>3$, then $14>6$

38. The following distribution indicates the life-time of 400 tube lights tested in a company :

Life-time (Hours)	Number of tube lights
300-399	14
400-499	46
500-599	58
600-699	76
700-799	68
800-899	62
900-999	48
1000-1099	22
1100-1199	6

What is the percentage of tube lights whose life-time is at least 500 but less than 1000 hours ?

(A) 76

(B) 77

(C) 78

(D) 79

Gyan prakash assam

39. A car travels 30 *km* at 30 *kmph*, 30 *km* at 60 *kmph*, and 10 *km* at 40 *kmph*. The average speed of the car for the entire journey is

(A) 40 *kmph*

(B) 40·33 *kmph*

(C) 43 *kmph*

(D) 43·33 *kmph*

40. From his house, a man goes 3 *kms* towards west; then he turns to his right and goes 4 *kms*. Now from his present position what is the minimum distance to his house ?

(A) 4 *km*

(B) 5 *km*

(C) 6 *km*

(D) 7 *km*

41. A cube has to be coloured in such a way as to avoid the same colour on adjacent surfaces. What is the minimum number of colours you will require ?

(A) Three

(B) Four

(C) Nine

(D) Six

42. The prefix "hypo" in hypothesis indicates

(A) Same

(B) Similar

(C) over

(D) under

43. MICR stands for

(A) Magnetic Integral Character Reader

(B) Magnetic Integral Chart Reader

(C) Magnetic Ink Character Reader

(D) Magnetic International Chart Reader

44. Dot Matrix is a type of

(A) Tape

(B) Disk

(C) Printer

(D) Bus

45. OCR stands for

(A) Optical Character Reader

(B) Optical Character Recognition

(C) Operational Character Reader

(D) Only Character Reader

46. The device used to connect a computer to a telephone line is

(A) HTML

(B) XML

(C) MODEM

(D) FTP

47. HTTP

(A) is an access method used on Internet.

(B) is a popular way of communication on the electronic frontier.

(C) is the way to meet people and share information.

(D) is an Internet address.

48. Which of the following is not a commonly followed direction or path of human communication ?

(A) Vertical

(B) Circular

(C) Lateral

(D) Diagonal

49. The group of animals, belonging to the same species, is known as

(A) ecosystem

(B) population

(C) community

(D) none of these.

50. Stress and anxiety are caused by

(A) air pollution

(B) noise pollution

(C) water pollution

(D) nuclear pollution

51. Air-borne diseases mainly cause harm to

(A) digestive system

(B) circulatory system

(C) reproductive system

(D) respiratory system

52. Which of the following is not caused due to global warming ?

(A) Melting of polar icecaps

(B) Formation of acid rain

(C) Change of climate

(D) Rise of sea-levels

53. Soil erosion can be prevented by

(A) afforestation

(B) deforestation

(C) overgrazing

(D) removal of vegetation

54. Indira Gandhi Canal has brought greenery to

(A) Haryana

(B) Rajasthan

(C) Karnataka

(D) Andhra Pradesh

55. In which of the following year, education was placed under the 'Concurrent list' ?

(A) 1974

(B) 1975

(C) 1976

(D) 1977

Gyan prakash assam

56. Which of the following body(ies) grant(s) fund for higher education ? Answer using Codes below :

(i) UGC

(ii) State Government

(iii) Municipal Corporation and Zilla Parishad

(iv) Central Government

Codes :

(A) Only (i)

(B) Only (iii) and (iv)

(C) (i), (ii) and (iv)

(D) (ii) and (iii)

57. The UGC has proposed a set of triple objectives for enhancing access to higher education in its 12th Plan document. Which one of the following fully covers the triple objectives ?

(A) Access and expansion, equity and inclusion, and quality and excellence.

(B) Access and enrolment, equity and expansion and quality.

(C) Access to cover all areas, equity across all sections, and excellence.

(D) Access to deprived sections, equity with justice to all, and quality and excellence.

58. The University Grants Commission (UGC) was established in

(A) 1952

(B) 1957

(C) 1987

(D) 1989

59. Which of the following is not entrusted with the responsibility of setting up University ?

(A) Central Government

(B) Parliament

(C) Upper House

(D) State Legislature.

60. Who is the chief of the UGC ?

(A) Secretary

(B) Ministry of Human Resource Development.

(C) Minister of State

(D) Chairperson.

PAPER – I

Note : There are **Sixty (60)** questions, out of which you are to answer **fifty (50)** questions only. If you answer more than **fifty (50)** questions, then only the first **fifty (50)** questions attempted will be evaluated. The questions carry **two (2)** marks each.

1. The following are some necessary qualities for a teacher.

I. Clarity of concepts
II. Good black board work
III. Ability to communicate
IV. Ability to relate concepts to real life situations.

Which of the following do you think is most important for a teacher of science and mathematics ?

(A) I and II
(B) I and III
(C) III and IV
(D) II and IV

2. For a teacher some research experience is useful because

(A) It raises the teaching standard of teachers.
(B) It makes the teachers intelligent.
(C) It makes the teachers better teachers.
(D) It enables the teachers to make good professional decisions.

3. Ancient Indian teachers applied some psychological principles in educating the young child from pre-school age to adolescence. They recognized the role of

(A) Convent system of schooling.
(B) Sense and perceptions in learning and teaching .
(C) Gurukul type of schooling.
(D) None of the above.

4. Which of the following is more appropriate for a successful teacher ?

(A) Talk in the class all the time.
(B) Mostly listen to what the students have to say.
(C) Talk and convince students to accept teacher's point of view.
(D) Develop a theme with active student involvement.

5. Below are given some essentials of teaching competencies

(i) assisting in the conduct of co-curricular activities.
(ii) motivating students for learning
(iii) improving classroom management
(iv) knowing subject matter thoroughly
(v) taking interest in college administration.

Which one of the following combinations is most appropriate for class-room teaching ?

(A) (i) (ii) (iii) and (iv)
(B) (i) (ii) (iii) and (v)
(C) (i) (iii) (iv) and (v)
(D) (ii) (iii) (iv) and (v)

6. The tests on the basis of which a teacher takes decisions are called

(A) instructional procedures

(B) instructional objectives

(C) performance assessment

(D) none of these

7. A competent teacher must have sound knowledge about the following four things. Arrange them according to proper order :

(A) practice, concepts, theory and research

(B) theory, research, practice and concepts

(C) concepts, theory, practice and research

(D) research, practice, concepts and theory

8. The process not needed in experimental research is

(A) controlling

(B) observation

(C) manipulation

(D) reference collection

9. The depth of research can be judged by

(A) title of the research

(B) objectives of research

(C) total expenditure

(D) duration of research

10. Field Study is related to

(A) real life situations

(B) experimental situations

(C) laboratory situations

(D) none of the above

11. Validity of a research can be improved by

(A) eliminating extraneous factors

(B) taking the true representative sample of the population

(C) both of the above measures

(D) none of these

12. A statistical measure based upon the entire population is called parameter while measure based upon a sample is known as

(A) sample parameter

(B) inference

(C) statistic

(D) none of these

Gyan prakash assam

Read the following passage and answer the question nos. **13** to **17**.

The first Governor General, Warren Hastings, returned early to his residence at No. 7 Hastings Street. He sat down at his large Secretariat Table, his slight frame bent in thought. He was in a pensive mood and was perhaps recollecting his difficult orphaned childhood and his happier school days at Westminster School where he made the acquaintance, amongst other contemporaries, of Sir Elijah Impey, the future Chief Justice of Bengal. On this

particular hot and humid night, he recalled the emotions which he felt on a cold January morning, thirty years ago, when at the age of eighteen, as a "Writer of the East India Company", he stood on the deck of the Indiaman, and watched the shores of England recede.

Nine and a half months later, he set foot on the banks of the Hooghly at the Kalpi anchorage, some fifty miles downstream from the British settlement of Calcutta, then barely fifty years old. He had come a long way since then. He took up his quill and in the flickering lamplight began to write his last will and testament. He put it away carefully in his campaign chest. He then composed a letter to his wife, his dearest Marian, the former Baroness Von Imhoff whom he had purposely left in Chinsura under the care of his good friend, the Hon. Johannes Mathias Ross, the head of the Dutch factory there. The letter was to be handed to her the next morning in the event of his death.

13. Warren Hastings was

(A) a clerk of the East India Company

(B) a playwright of the East India Company

(C) an author

(D) a journalist

14. Warren Hastings came to India by a ship named

(A) Chinsura

(B) Indiaman

(C) England

(D) Kalpi

15. Warren Hastings landed at

(A) Chinsura

(B) Calcutta

(C) Kalpi

(D) none of these

16. "He had come a long way since then" means

(A) He had walked a long way

(B) He had travelled a lot

(C) A long time had passed since then

(D) none of these

17. "pensive" means

(A) sorrowfully thoughtful

(B) nostalgic

(C) timid

(D) pessimistic

18. Dyadic communication is the transfer of message from a person

(A) to another person and vice versa

(B) to a group of persons

(C) to a mass audience

(D) none of these

19. Which one of the following is not a traditional medium of communication ?

(A) literature

(B) painting

(C) television

(D) music

Gyan prakash assam

20. Which of the following is not a successful communicator ?

(A) one who presents material in a precise and clean way

(B) one who is able to adopt himself according to the language of the communicatee

(C) one who knows a lot but is somewhat reserve in his attitude

(D) one who sometimes becomes informal before the receiver and develops rapport

21. Microphone is a hi-fi instrument. Hi-fi means

(A) high fidelity

(B) high finial

(C) high finical

(D) high finicky

22. Effective communication does not require

(A) voice modulation

(B) appropriate gestures

(C) students' involvement

(D) handsome appearance

23. Complete the following sentence by choosing the correct alternative given below

Communication of any sort is a —— —— process.

(A) to and fro

(B) up-down

(C) forward-backward

(D) two way

24. Find the number that should come next in the incomplete sequence given below :

3, 12, 39, 120, ?

(A) 243

(B) 363

(C) 483

(D) 503

25. Today is Monday. What will be the day after 291 days ?

(A) Tuesday

(B) Wednesday

(C) Thursday

(D) Friday

26. Monday is to April as Friday is to ☐ . The appropriate word in the box is

(A) May

(B) June

(C) July

(D) August

27. Find the term which would replace the question mark.

TYU, NSO, HMI, ?

(A) ABC

(B) BEF

(C) BGC

(D) CGB

Gyan prakash assam

28. If $27 \times 15 = 15$, $38 \times 29 = 22$, $98 \times 57 = 29$
What is $49 \times 19 = ?$

(A) 23

(B) 29

(C) 35

(D) 36

29. Find the number that should come next in the sequence given below :
1, 1, 2, 3, 5, 8, 13, ?

(A) 15

(B) 17

(C) 19

(D) 21

Read the given information and answer the two questions (**30** and **31**) based on it :

i. A, B, C, D, E, F and G are sitting on a bench facing east.

ii. C is at the immediate right of D.

iii. B is at the extreme end and has E as his neighbour.

iv. G is between E and F

v. D is sitting third from the south end.

30. Who is sitting to the immediate right of C ?

(A) A

(B) D

(C) F

(D) none of these

31. The person sitting at the fourth position from the north end is

(A) A

(B) C

(C) F

(D) none of these

32. A statement given below is followed by two assumptions numbered I and II. You have to consider the statement and the assumptions and decide which of the assumptions is implicit in the statement.

Statement : A lie, which by its delivery, blocks the emotional distress of the recipient, is justified.

Assumptions :

I. It is possible that one can alleviate another's stress by lying about the truth.

II. One of the ways to always justify a lie is to view it as bringing relief to a disturbed person.

(A) Assumption I is implicit, II is not implicit

(B) Assumption II is implicit, I is not implicit

(C) Neither I nor II is implicit

(D) Both I and II are implicit

Gyanprakash assam

33. The following question is followed by two arguments numbered I and II. You are required to decide which one is strong and which one is weak using code.

Question :

Should luxury hotels be banned in India ?

Arguments :

I. Yes. They are places from where international criminals operate.

II. No. Affluent foreign tourists will not have a place to stay.

Codes :

(A) Only argument I is strong

(B) Only argument II is strong

(C) Neither argument I nor II is strong

(D) Both arguments I and II are strong

34. There are two statements given below followed by four conclusions numbered I, II, III and IV. You have to take the two given statements to be true even if they seem to be at variance with the commonly known facts.

Statements : Some pencils are papers. Some papers are boxes.

Conclusions : I. Some pencils are boxes.

II. Some boxes are pencils

III. Some boxes are papers

IV. Some papers are pencils

Decide from the codes below which of the above conclusions logically follow / follows from the given statements, disregarding commonly known facts.

Codes :

(A) Only I and II follow

(B) Only III and IV follow

(C) All follow

(D) None follows

35. In a certain neighbourhood

I. No resident is educated

II. Some residents are educated

III. Some residents are not educated

IV. All residents are educated

Of the four statements shown above, there are two statements both of which cannot be true but both can be false. Which are these two statements ?

(A) I and II

(B) III and IV

(C) I and IV

(D) II and III

The distribution of population of seven states A, B, C, D, E, F, G is given below :

Male Population Total Male Population = 50 lakh Statewise Distribution						
A	B	C	D	E	F	G
12%	14%	9%	11%	18%	24%	12%

Female Population Total Female Population = 45 lakh Statewise Distribution						
A	B	C	D	E	F	G
13%	9%	16%	21%	18%	8%	15%

Read the above distribution and answer the following questions (from **36** to **40**)

36. Total population of the state A in lakh is

(A) 25

(B) 23·75

(C) 11·85

(D) none of these

Gyan Prakash Assam

37. Ratio between male population of C and female population of B is

(A) 1 : 1

(B) 10 : 9

(C) 9 : 100

(D) none of these

38. Ratio between the total population of D and F is

(A) 1 : 1

(B) 10 : 9

(C) 115 : 12

(D) none of these

39. (A) Male population of E = Female population of E

(B) E has 5 lakh more male population than female population

(C) E has 90 thousand more male population than female population

(D) none of these

40. Average population of the seven states is

(A) $\frac{45}{7}$

(B) $\frac{50}{7}$

(C) $\frac{95}{7}$

(D) $\frac{200}{7}$

41. Which of the following is not a transmission medium ?

(A) telephone lines

(B) coaxial cable

(C) MODEM

(D) microwave system.

42. Which of the following is a unit of measurement used with computer system ?

(A) byte

(B) megabyte

(C) gigabyte

(D) all of the above

43. Which kind of storage device can be carried around ?

(A) monitor

(B) system cabinet

(C) diskette

(D) main memory

44. Which of the following is not a form of 'information' ?

(A) Directives

(B) Reports

(C) Transactions

(D) Product names

45. Give the expanded form of CAD choosing one from the following :

(A) Computer Assisted Design

(B) Computer Art Design

(C) Computer Aided Design

(D) Computer Android Design

Gyan prakash assam

46. Who is called the "grandfather" of the Computer ?

(A) Blaire Pascal

(B) Charles Babbage

(C) Joseph Jacquard

(D) Dr Herman Hollerith

47. People of Bishnoi community lose their lives while protecting

(A) teak tree

(B) pine tree

(C) sal tree

(D) Khejri tree

48. Who is known as the architect of Green Revolution in India ?

(A) Sunderlal Bahuguna

(B) Medha Patkar

(C) Professor M S Swaminathan

(D) Professor P C Mahalanobis

49. Which of the following are alternate sources of energy ?

(A) fossil fuels

(B) wind

(C) solar Energy

(D) Both (B) and (C)

50. Lead is considered mainly

(A) air pollutant

(B) water pollutant

(C) land pollutant

(D) radioactive pollutant

51. All electrical appliances use energy which is measured in terms of Watts. In the following table match the electrical appliances with the appropriate Watts that they use.

Appliance		**Watts**
a. Computer	I	6
b. Fluorescent light	II	60
c. Refrigerator	III	100
d. Colour TV	IV	250
	V	400
	VI	1000
	VII	2000

Choose the correct match from the following codes :

Codes	a	b	c	d
(A)	V	II	VI	VII
(B)	VI	IV	VII	V
(C)	VI	I	V	III
(D)	V	II	VI	IV

52. Exploitation of minerals can cause environmental pollution. Choose from the codes given below which statements are true and which are false ?

a. Natural-gas used in the manufacture of fertilizers

b. Coal-fields in the Makum Belt

c. China-clay in the production of ceramics

d. Granitic minerals extracted in Kokrajhar and other places

Codes	**Observations**			
	a	b	c	d
(A)	True	False	False	True
(B)	False	True	True	True
(C)	True	True	False	False
(D)	False	True	False	True

Gyan prakash assam

53. Which of the following is not a Central University ?
(A) Assam University
(B) Bombay University
(C) Hyderabad University
(D) Visva Bharati

54. Who is the Chancellor of Kumar Bhaskar Varma Sanskrit and Ancient Studies University ?
(A) President of India
(B) Vice President of India
(C) Governor of Assam
(D) Chief Minister of Assam

55. Match the following and select your answer from the codes given below :

List I	List II
a. NCTE	1. Trust related to books
b. NCERT	2. Research in education
c. NBT	3. Education for teachers
d. DIET	4. Education and training in district institutes
	5. Distance education

Codes	Observations			
	a	b	c	d
(A)	5	2	1	3
(B)	3	1	2	4
(C)	5	2	1	4
(D)	3	2	1	4

56. The most important factor in teaching in higher education is to
(A) supply the relevant information to students
(B) prepare students for the various competitive examinations
(C) lead students to the sources of information
(D) develop a spirit of competition for higher achievement in students.

57. Which one of the following is an important occupation of educated women ?
(A) teaching
(B) medicine
(C) nursing
(D) all of these

58. Identify the correct expanded form of CPE
(A) Colleges for Programme Excellence
(B) Colleges with Potential for Excellence
(C) Colleges for Physical Education
(D) Colleges with Potential for Expansion.

59. An artificial ecosystem is
(A) lake
(B) ocean
(C) aquarium
(D) forest

60. Organisation involved in formulating programmes for protecting environment is
(A) UNDP
(B) UNEP
(C) UNICEF
(D) WHO
